This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. PREFACE.

This Report was compiled and sent to the State Printer in February, 1903. Owing to the large amount of printing caused by the session of the Legislature, the State Printer is behind in his work, and it is probable that he cannot begin on this Report for several months. It has been decided, therefore, to have a limited number of copies printed by private contract at the expense of the State Board of Health. The finances of the Board will not permit of the publication of the usual number, three thousand five hundred copies.

Changes have been made from time to time since February 1st, in some of the subjects embraced in this Report. This will account for the difference in the dates on the title pages. As it is necessary to send the copy to the printer today, it is impracticable to bring each subject down to the present time. The information contained in each has been corrected to the date on the title page. The Official Register of Physicians will be corrected to the time of issuance. Attention is invited to the Preface of the Official Register.

*THE ILLINOIS MEDICAL PRACTICE ACT.

AN ACT to Regulate the Practice of Medicine in the State of Illinois. Approved May 29, 1877. In force July 1, 1877.

Repealed June 30, 1887.

SECTION 1. *Be it enacted by the people of the State of Illinois, represented in the General Assembly,* That every person practicing medicine, in any of its departments, shall possess the qualifications required by this act. If a graduate in medicine, he shall present his diploma to the State Board of Health, if such Board of Health shall be established by law, or Board of Examiners herein named, for verification as to its genuineness. If the diploma is found genuine, and if the person named therein be the person claiming and presenting the same, the State Board of Health, if such Board of Health shall be established by law, or the Board of Examiners, shall issue its certificate to that effect, signed by all of the members thereof, and such diploma and certificate shall be conclusive as to the right of the lawful holder of the same to practice medicine in this State. If not a graduate, the person practicing medicine in this State shall present himself before said Board, and submit himself to such examinations as the said Board shall require; and, if the examination be satisfactory to the examiners, the said Board shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges herein mentioned.

SEC. 2. In case a State Board of Health shall not be established by law, then each State Medical Society incorporated and in active existence on the first day of July, eighteen hundred and seventy-seven, whose members are required to possess diplomas or license from some legally chartered medical institution in good standing, shall appoint, annually, a Board of Examiners consisting of seven members, who shall hold their office for one year, and until their successors shall be chosen. The examiners so appointed shall go before a county judge and make oath that they are regular graduates, or licentiates, and that they will faithfully perform the duties of their office. Vacancies occurring in a Board of Examiners shall be filled by the society appointing it by the selection of alternates, or otherwise.

SEC. 3. The State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, shall organize within three months after the passage of this act, they shall procure a seal, and shall receive through their secretary applications for certificates and examinations, the president of each Board shall have authority to administer oaths, and the Board take testimony in all matters relating to their duties; they shall issue certificates to all who furnish satisfactory proof of having received diplomas, or licenses from legally chartered medical institutions in good standing; they shall prepare two forms of certificates, one for persons in possession of diplomas or licenses, the other for candidates examined by the Board; they shall furnish to the county clerks of the several counties a list of all persons receiving certificates. In selecting places to hold their meetings they shall, as far as is reasonable, accommodate applicants residing in different sections of the state, and due notice shall be published of all their meetings. Certificates shall be signed by all the members of the Board granting them, and shall indicate the medical society to which the Examining Board is attached.

*For law now in force see page xv.

SEC. 4. Said State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, shall examine diplomas as to their genuineness, and if the diploma shall be found genuine as represented, the Secretary of the State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, shall receive a fee of one dollar from each graduate or licentiate, and no further charge shall be made to the applicants; but if it be found to be fraudulent, or not lawfully owned by the possessor, the Board shall be entitled to charge and collect twenty dollars of the applicant presenting such diploma. The verification of the diploma shall consist in the affidavit of the holder and applicant that he is the lawful possessor of the same, and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such officer, if he have a seal. Graduates may present their diplomas and affidavits as provided in this act, by letter or by proxy, and the State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, shall issue its certificate the same as though the owner of the diploma was present.

SEC. 5. All examinations of persons not graduates or licentiates, shall be made directly by the Board, and the certificates given by the Boards shall authorize the possessor to practice medicine and surgery in the State of Illinois.

SEC. 6. Every person holding a certificate from the State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, shall have it recorded in the office of the clerk of the county in which he resides, and the record shall be indorsed thereon. Any person removing to another county to practice shall procure an indorsement to that effect on the certificate from the county clerk, and shall record the certificate, in like manner, in the county to which he removes, and the holder of the certificate shall pay to the county clerk the usual fees for making the record.

SEC. 7. The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the issue and the name of the medical society represented by the State Board of Health, if such Board of Health shall be established by law, or Board of Examiners issuing them. If the certificate be based on a diploma or license, he shall record the name of the medical institution conferring it, and the date when conferred. The register of the county clerk shall be open to public inspection during business hours.

SEC. 8. Candidates for examination shall pay a fee of five dollars, in advance, which shall be returned to them if a certificate be refused. The fees received by the Board shall be paid into the treasury of the medical society by which the Board shall have been appointed, and the expenses and compensation of the Board shall be subject to arrangement with the society.

SEC. 9. Examinations may be made in whole, or in part in writing, and shall be of an elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner.

SEC. 10. The State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, may refuse certificates to individuals guilty of unprofessional or dishonorable conduct, and they may revoke certificates for like causes. In all cases of refusal or revocation the applicant may appeal to the body appointing the board.

SEC. 11. Any person shall be regarded as practicing medicine within the meaning of this act, who shall profess publicly to be a physician, and to prescribe for the sick, or who shall append to his name the letters of "M. D." But nothing in this act shall be construed to prohibit students from prescribing under the supervision of preceptors, or to prohibit gratuitous services in cases of emergency. And this act shall not apply to commissioned surgeons of the United States army and navy.

SEC. 12. Any itinerant vender of any drug, nostrum, ointment, or appli-

ance of any kind, intended for the treatment of disease or injury, or who shall, by writing or printing, or any other method, publicly profess to cure or treat diseases, injury or deformity by any drug, nostrum, manipulation or other expedient, shall pay a license of one hundred dollars a month, to be collected in the usual way.

SEC. 13. Any person practicing medicine or surgery in this state without complying with the provisions of this act, shall be punished by a fine of not less than fifty dollars, nor more than five hundred dollars, or by imprisonment in the county jail for a period of not less than thirty days, nor more than three hundred and sixty-five days, or by both such fine and imprisonment, for each and every offense; and any person filing or attempting to file, as his own, the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of a felony, and upon conviction shall be subject to such fine and imprisonment as are made and provided by the statutes of this state for the crime of forgery, but the penalties shall not be enforced till on and after the thirty-first day of December, eighteen-hundred and seventy-seven: *Provided*, That the provisions of this act shall not apply to those that have been practicing medicine ten years within this state.

*THE ILLINOIS MEDICAL PRACTICE ACT.

AN ACT to Regulate the Practice of Medicine in the State of Illinois. Approved June 16, 1887. In force July 1, 1887.

Repealed June 30, 1899.

SECTION 1. QUALIFICATIONS FOR PRACTICE—DIPLOMA—EXAMINATION—CERTIFICATE OF STATE BOARD OF HEALTH.] *Be it enacted by the people of the State of Illinois, represented in the General Assembly:* That no person shall practice medicine in any of its departments in this State unless such person possesses the qualifications required by this act.

If a graduate in medicine, he must present his diploma to the State Board of Health for verification as to its genuineness. If the diploma is found genuine, and from a legally-chartered medical institution in good standing, and if the person named therein be the person claiming and presenting the same, the State Board of Health shall issue a certificate to that effect signed by all the members thereof, and such certificate shall be conclusive as to the right of the lawful holder of the same to practice medicine in this State.

If not a graduate, the person practicing medicine in this State shall present himself before said Board and submit himself to such examination as the Board may require, and if the examination be satisfactory to the Board, the said Board shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges herein mentioned.

SEC. 2. STATE BOARD OF HEALTH—ORGANIZATION, ETC.—CERTIFICATES.] The State Board of Health shall organize within three months after the passage of this act; it shall procure a seal and shall receive, through its Secretary, applications for certificates and examinations; the President and Secretary shall have the authority to administer oaths, and the Board to take testimony in all matters relating to its duties; it shall issue certificates to all who furnish satisfactory proof of having received diplomas or licenses from legally-chartered medical institutions in good standing as may be determined by the Board; it shall prepare three forms of certificates, one for persons in possession of such diplomas or licenses, the second for candidates examined and favorably passed on by the Board, and a third for persons to whom certificates may be issued as hereinafter provided in section 12 of this act; it shall furnish to the county clerks of the several counties a list of all persons receiving certificates. In selecting places to hold its meetings, it shall, as far as it is reasonable, accommodate applicants residing in different sections of the State, and due notice shall be published of all its meetings for examination.

Certificates shall be signed by all the members of the Board, and the Secretary of the Board shall receive from the applicant a fee of five (5) dollars for each certificate issued to such graduate or licentiate. Graduates or licentiates in midwifery to pay the sum of two (2) dollars for each certificate. All such fees for certificates shall be paid by the Secretary into the treasury of the Board.

SEC. 3. VERIFICATION OF DIPLOMA—AFFIDAVIT.] The verification of the diploma shall consist in the affidavit of the holder and applicant that he is

*For law now in force see page XV.

be lawful possessor of the same, and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and seal of such officer, if he have a seal; and any person swearing falsely shall be deemed guilty of perjury, and punished accordingly.

Graduates may present their diplomas and affidavits, as provided in this act, by letter or by proxy, and the State Board of Health shall issue its certificate the same as though the owner was present.

SEC. 4. EXAMINATION BY BOARD.] All examinations of persons not graduates or licentiates, shall be made directly by the Board, and the certificates given by the Board shall authorize the possessor to practice medicine and surgery in the State of Illinois.

SEC. 5. CERTIFICATE TO BE RECORDED.] Every person holding a certificate from the State Board of Health shall have it recorded in the office of the clerk of the county in which he resides within three months from its date, and the date of recording shall be endorsed thereon. Until such certificate is recorded as herein provided, the holder thereof shall not exercise any of the rights or privileges conferred therein to practice medicine.

Any person removing to another county to practice, shall record the certificate in like manner in the county to which he removes, and the holder of the certificate shall pay to the county clerk the usual fee for making the record.

SEC. 6. BOOK TO BE KEPT.] The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the issue of the certificate. If the certificate be based on a diploma or license, he shall record the name of the medical institution conferring it, and the date when conferred. The register of the county clerk shall be open to public inspection during business hours.

SEC. 7. FEES FOR EXAMINATIONS.] The fees for the examination of non-graduates shall be as follows: Twenty (20) dollars for an examination in medicine and surgery; ten (10) dollars for an examination in midwifery only; and said fees shall be paid into the treasury of the Board. If an applicant fails to pass said examination, his or her fee shall be returned. Upon successfully passing the examination, the certificate of the Board shall be issued to the applicant without further charge.

SEC. 8. CHARACTER OF EXAMINATION.] Examinations may be made in whole or in part in writing, and shall be of an elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner.

SEC. 9. REFUSAL OR REVOCATION OF CERTIFICATE.] The State Board of Health may refuse to issue the certificates provided for in Section 2, to individuals guilty of unprofessional or dishonorable conduct, and it may revoke such certificates for like causes. In all cases of refusal or revocation the applicant may appeal to the Governor, who may affirm or overrule the decision of the Board, and this decision shall be final.

SEC. 10. DEFINITION OF PRACTICING PHYSICIAN.] Any person shall be regarded as practicing medicine, within the meaning of this act, who shall treat, operate on, or prescribe for any physical ailment of another. But nothing in this act shall be construed to prohibit service in cases of emergency, or the domestic administration of family remedies. And this act shall not apply to commissioned surgeons of the United States Army, Navy or Marine Hospital service in the discharge of their official duties.

SEC. 11. ITINERANT VENDOR OF DRUGS, ETC.—LICENSE.] Any itinerant vendor of any drug, nostrum, ointment or appliance of any kind intended for the treatment of disease or injury, who shall, by writing or printing, or any other method, profess to cure or treat disease or deformity by any drug, nos-

trum, manipulation or other expedient, shall pay a license of one hundred (100) dollars per month into the treasury of the Board, to be collected by the State Board of Health, in the name of the People of the State of Illinois, for the use of the said Board of Health. And it shall be lawful for the State Board of Health to issue such license on application made to the State Board of Health, such license to be signed by the President of the Board, and attested by the Secretary of the Board, with the seal of the Board.

Any such itinerant vendor who shall vend or sell any such drug, nostrum, ointment or appliance without having a license so to do, shall, if found guilty, be fined in any sum not less than one hundred dollars, and not exceeding two hundred dollars for each offense, to be recovered in an action of debt before any court of competent jurisdiction. But such Board may for sufficient cause refuse such license.

SEC. 12. PENALTY FOR PRACTICING WITHOUT CERTIFICATE—USING ANOTHER'S DIPLOMA.] Any person practicing medicine or surgery in the State without the certificate issued by this Board, in compliance with the provisions of this act, shall for each and every instance of such practice forfeit and pay to the people of the State of Illinois, for the use of the said State Board of Health, the sum of one hundred (100) dollars for the first offense, and two hundred (200) dollars for each subsequent offense, the same to be recovered in an action of debt before any court of competent jurisdiction, and any person filing or attempting to file as his own the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of a felony, and upon conviction, shall be subject to such fine and imprisonment as are made and provided by the statutes of the State for the crime of forgery.

Provided, that all persons who have been practicing medicine continuously for ten years within the State prior to the taking effect of the act to which this is an amendment, and who have not under said original act, obtained a certificate from the said Board of Health to practice medicine in this State, shall upon proper application to said Board of Health receive such certificate, unless it shall be ascertained and determined by said Board of Health that the person so applying for a certificate is of immoral character, or guilty of unprofessional or dishonorable conduct, in which case said Board of Health may reject such application.

And, provided, that such application for a certificate shall be made within six months after the taking effect of this act, and all persons holding a certificate on account of ten years' practice shall be subject to all the requirements and discipline of this act, and the act to which this is an amendment, in regard to their future conduct in the practice of medicine the same as all other persons holding certificates, and all persons not having applied for or received such certificate within six months after the taking effect of this act, and all persons whose applications have for the causes herein named been rejected or certificate revoked, shall, if they shall practice medicine, be deemed guilty of practicing in violation of law and shall suffer the penalties herein provided.

SEC. 13. JUDGMENT UPON CONVICTION—APPEAL.] Upon conviction of either of the offenses mentioned in this act, the court shall, as a part of the judgment, order that the defendant be committed to the common jail of the county until the fine and costs are paid, and upon failure to pay the same immediately, the defendant shall be committed under said order.

Provided, that either party may appeal in the same time and manner as appeals may be taken in other cases, except that where an appeal is prayed in behalf of the People, no appeal bond shall be required to be filed, whether the appeal be from a justice of the peace, or from the county or circuit court, or from the appellate court. But it shall be sufficient in behalf of the People of the State of Illinois, for the use of the State Board of Health, to pray an appeal, and thereupon appeal may be had without bond or security.

SEC. 13a. REPEAL.] All acts and parts of acts inconsistent or in conflict with this act are hereby repealed.

(Chapter 91 Revised Statutes of Illinois, 1901.)

MEDICINE AND SURGERY.

PRACTICE REGULATED.

AN Act to Regulate the Practice of Medicine in the State of Illinois, and to Repeal an Act Therein Named.

In Force July 1, 1899.

SECTION 1. ORGANIZATION AND DUTIES OF STATE BOARD OF HEALTH.] *Be it enacted by the People of the State of Illinois represented in the General Assembly:* That the State Board of Health shall organize within three months after the passage of this act; it shall procure a seal and shall receive through its Secretary applications for certificates and examinations. The President and Secretary shall have the authority to administer oaths, and the Board to take testimony in all matters relating to its duties.

SEC. 2. LICENSE FROM STATE BOARD OF HEALTH REQUIRED—APPLICATIONS FOR LICENSE—EXAMINATIONS—GRADUATES OF LEGALLY CHARTERED MEDICAL COLLEGES IN ILLINOIS IN GOOD STANDING GRANTED CERTIFICATES.] No person shall hereafter begin the practice of medicine, or any of the branches thereof, or midwifery, in this State without first applying for and obtaining a license from the State Board of Health to do so. Application shall be in writing, and shall be accompanied by the examination fees hereinafter specified, and with proof that the applicant is of good moral character. Applications from candidates who desire to practice medicine and surgery in all their branches shall be accompanied by proof that the applicant is a graduate of a medical college or institution in good standing, as may be determined by the Board. When the application aforesaid has been inspected by the Board and found to comply with the foregoing provisions, the Board shall notify the applicant to appear before it for examination, at the time and place mentioned in such notice.

Examinations may be made in whole or in part in writing by the Board, and shall be of a character sufficiently strict to test the qualifications of the candidate as a practitioner. The examination of those who desire to practice medicine and surgery in all their branches shall embrace those general subjects and topics, a knowledge of which is commonly and generally required of candidates

for the degree of doctor of medicine, by reputable medical colleges in the United States. The examination of those who desire to practice midwifery shall be of such a character as to determine the qualification of the applicant to practice midwifery. The examination of those who desire to practice any other system or science of treating human ailments who do not use medicines internally or externally, and who do not practice operative surgery shall be of a character sufficiently strict to test their qualifications as practitioners. All examinations provided for in this act shall be conducted under the rules and regulations prescribed by the Board, which shall provide for a fair and wholly impartial method of examination. *Provided*, that graduates of legally chartered medical colleges in Illinois in good standing as may be determined by the Board, may be granted certificates without examination.

SEC. 3. LICENSE TO PRACTICE—PROVISIONS.] If the applicant successfully passes his examination, or presents a diploma from a legally chartered medical college in Illinois of good standing, the Board shall issue to such applicant a license authorizing him to practice medicine, midwifery or other system of treating human ailments, as the case may be: *Provided*, that those who are authorized to practice other systems can not use medicine internally or externally or perform surgical operations: *Provided, further*, that only those who are authorized to practice medicine and surgery in all their branches shall call or advertise themselves as physicians or doctors: *And, provided further*, that those who are authorized to practice midwifery shall not use any drug or medicine or attend other than cases of labor. Such license shall be in such form as may be determined by the Board, and in accordance with the provisions of this act: *Provided*, however, that any wilful violation on the part of an applicant of any of the rules and regulations of the Board governing examinations shall be sufficient cause for the Board to refuse to issue a license to such applicant. Such certificates shall be signed by all members of the Board and attested by the Secretary.

SEC. 4. CERTIFICATES TO BE RECORDED IN OFFICE OF COUNTY CLERK—RECORDS OF COUNTY CLERK.] Every person holding a certificate from the State Board of Health shall have it recorded in the office of the clerk of the county in which he resides or practices within three months from its date, and the date of recording shall be endorsed thereon. Until such certificate is recorded, as herein provided, the holder thereof shall not exercise any of the rights or privileges conferred therein. Any person practicing in another county shall record the certificate in like manner in the county in which he practices, and the holder of the certificate shall pay to the county clerk the usual fee for making the record. The county clerk shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the issue of the certificate. The register of the county clerk shall be open to public inspection during business hours.

SEC. 5. EXAMINATION FEES.] The fees for examination and for a certificate shall be as follows: Ten (10) dollars for examination in medicine and surgery, and five (5) dollars for a certificate if issued. Five (5) dollars for an examination in midwifery, and three (3) dollars for a certificate if issued. For all other practitioners ten (10) dollars for an examination and five (5) dollars for a certificate if issued.

SEC. 6. UNPROFESSIONAL OR DISHONORABLE CONDUCT—BOARD MAY WITHHOLD OR REVOKE CERTIFICATES—HEARING.] The State Board of Health may refuse to issue the certificates provided for in this act to individuals who have been convicted of the practice of criminal abortion, or who have, by false or fraudulent representation, obtained or sought to obtain practice in their profession, or by false or fraudulent representation of their profession have obtained or sought to obtain money or any other thing of value, or who advertise under names other than their own, or for any other unprofessional or dishonorable conduct, and the Board may revoke such certificates for like causes. *Provided*, that no certificates shall be revoked or refused until the holder or applicant shall be given a hearing before the Board.

SEC. 7. DEFINITION OF THIS ACT.] Any person shall be regarded as practicing medicine, within the meaning of this act, who shall treat or profess to treat, operate on or prescribe for any physical ailment or any physical injury to or deformity of another;: *Provided*, that nothing in this section shall be construed to apply to the administration of domestic or family remedies in cases of emergency, or to the laws regulating the practice of dentistry or of pharmacy. And this act shall not apply to surgeons of the United States army, navy or marine hospital service in the discharge of their official duties, or to any person who ministers to or treats the sick or suffering by mental or spiritual means, without the use of any drug or material remedy.

SEC. 8. ITINERANT VENDERS—LICENSE—PENALTIES.] That any itinerant vender of any drug, nostrum, ointment or appliance of any kind intended for the treatment of diseases or injury, who shall by writing or printing, or any other method, profess to the public to cure or treat disease or deformity by any drug, nostrum or application, shall pay a license of one hundred (100) dollars per month into the treasury of the Board, to be collected by the Board in the name of the People of the State of Illinois, for the use of said Board. And it shall be lawful for the State Board of Health to issue such license on application made to said Board, said license to be signed by the President of the Board and attested by the Secretary with the seal of the Board; but said Board may for sufficient cause, refuse said license. And such itinerant vender, who shall, by writing or printing, or any other method, profess to cure or treat disease or deformity by any drug, nostrum or appliance without a license so to do, shall be deemed guilty of a violation of this

fore, in every particular a civil proceeding. It is true, the present law provides that if the fine is not paid a mittimus shall issue and the defendant be committed to jail. But this imprisonment is a penalty for not paying the fine; it is not a penalty for practicing without a certificate.—Section 10, Law of 1899.

In the action brought for this penalty of fine it is only necessary for the prosecution to prove that the defendant practiced medicine as defined by the statute, or, if an itinerant vendor, that he violated Section 8 of the Act, in the county where the suit is brought, and within two years before the commencement of the action.

The burden of proof is then on the defendant who must either:

(*a*) Rebut the prosecutor's testimony by proof that he did not do the acts testified to by the people's witnesses, or

(*b*) Show that he is licensed and registered as the statute requires; or

(*c*) Show that he is within the exemptions, if any, of the statute.

It may be said that an action of debt is not an adequate remedy for punishing a transient violator of this law, for the reason that where a summons in debt is issued there must be at least five days between the issuing of the summons and the trial before a justice and a still longer period if brought in the circuit court; in the meantime, there is nothing to prevent the defendant from departing from the county.

This is true. But the Legislature saw fit, by the present act, to take away the criminal nature of the proceeding to recover the penalties and the only remedy left, if the defendant is about to depart, is by *capias ad respondendum* or attachment. The great object, however, is accomplished—the defendant is compelled to quit his practice and, if he departs after service of the summons, a judgment can be obtained against him and, if within the State, he can be arrested and committed to jail for his failure to pay the judgment.

"The fact that the prosecution in these cases is a civil action and that the usee—the STATE BOARD OF HEALTH—is the real party in interest makes the action one which it is not the statutory duty of State's attorneys to prosecute.—See Sec. 5, Chap. 14, Revised Statutes. Therefore, the STATE BOARD OF HEALTH may, if any State's Attorney neglects or refuses to prosecute, select some other attorney."—Opinion Attorney General of Illinois, 1887.

NOTE.—THE STATE BOARD OF HEALTH, in order to secure a diligent and efficient enforcement of the Act, relinquishes all fines which may be imposed to the attorneys who prosecute.

Six hundred and twenty-eight authorizations for the prosecution of violators of the Medical Practice Act were issued by the State Board of Health between January 1, 1897, and May 1, 1903.

MEDICINE AND SURGERY.

Fraudulent Representations of Practitioners.

AN ACT to prohibit physicians from practicing medicine in the name of another physician, or by holding themselves out as other physicians, for the purpose of imposing upon or defrauding any other person in this State. Approved May 11, 1901.

In Force July 1, 1901.

SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly:* That it shall be unlawful for any physician to practice medicine in this State in the name of another physician, or to hold himself out as another physician, by advertisements, bills, posters or otherwise, for the purpose of imposing upon or defrauding any other person.

SEC. 2. Any person who shall violate the provisions of this act shall be subject to a fine of not less than five hundred dollars for the first offense, and imprisonment for a period of six months in the county jail of the county in which the offense is committed for each offense committed thereafter.

FRAUDULENT DEGREES AND DIPLOMAS.

*Amendment to Act concerning corporations, approved April 21, 1899. In force July 1, 1899.

Section 2. * * * * * * * *

Provided, That the Attorney General may file a bill of chancery in the name of the people of the state of Illinois, against any corporation authorized to confer degrees, diplomas or other certificate or certificates of qualification in the science of medicine, pharmacy or dentistry which conducts a fraudulent business or abuses, misuses or violates the terms of its charter, in any court having jurisdiction of the corporation and subject matter of such bill, for an injunction to restrain said corporation from conducting its business fraudulently or abusing, misusing or violating the terms of its charter, and also for the dissolution of said corporation, and thereupon it shall be the duty of the court in which said bill is filed to grant such injunction and to hear and determine the same as in other cases in chancery."

*The necessity for this law, which was obtained in 1899, through the persistent efforts of the Secretary of the State Board of Health, to remedy the conditions then existing, was shown in the following extract from the report of the Committee on Foreign Relations of the National Association of Dental Faculties, August, 1898.

"The State of Illinois is a glaring example of this kind of vicious legislation, and nearly or quite all the fraudulent colleges are now located in the city of Chicago, to the great reproach of the state and the profession of dentistry within its borders. That city contains some of the very best of our educational institutions, and at the same time the most villainous impostures conceivable. * * * Men unacquainted with professional educational affairs, who know not the wiles of designing tricksters who would take advantage of an innocent law to further their own selfish purposes, are not the best judges of what is proper legislation for the professions. In an unsuspecting moment, and without sufficient consideration, there was placed upon the Illinois statute books an enactment which, while assuming to further business interests, and honestly intended for their benefit, allows the incorporation under the law of associations that may carry on a fraudulent diploma business. * * * This seems a monstrous state of affairs, but it has been suffered to exist for years. The citizens of other states are powerless, for Illinois is supreme within her own jurisdiction, and she continues to protect her criminals in their villainy. The task of securing the repeal of this vicious law is too great for the courage of its reputable men, for ignorance and vice have struck hands in its maintenance. * * * As a consequence of the continuance of this demoralizing law, a considerable number of the practitioners of Chicago carry in their pockets, or exhibit on their walls, college charters conferring upon them the power to issue diplomas. * * * * "

Through the enactment of this law it has been possible to summarily end the operations of such institutions as the "Illinois Health University," "Independent Medical College," "Metropolitan Medical College," "International Medical College" and the "Scientific Medical College," which have disgraced the State of Illinois, at home and abroad, for so many years, and caused a depreciation of the value of Illinois degrees in Europe, especially, in which the laxity of State laws is not comprehended.

INFORMATION FOR APPLICANTS FOR STATE CERTIFICATE.

State Certificates authorizing the practice of medicine and surgery in the State of Illinois are issued by the State Board of Health on complying with the following requirements, based upon the act to regulate the practice of medicine in the State of Illinois, in force July 1, 1899.

The applicant must present to the State Board of Health for verification, at the office of the Secretary, in Springfield, or in Chicago at the time of the examination, the diploma of a legally chartered medical institution in good standing. The diploma, when sent to Springfield, should be forwarded, prepaid, by express or registered mail. If by mail, letter postage must be affixed to the package.

Said diploma must be accompanied by the affidavit of the holder and applicant on the blank form furnished by the Board, that he or she is the lawful possessor of the same and is the person named therein. The affidavit must show, also, the number of years the applicant has studied medicine, including the time spent in attendance at medical colleges.

The affidavit must be accompanied by letters of recommendation with regard to the moral and professional character of the applicant from at least two reputable medical men who live in Illinois, or, if from non-residents of the State, such letters must be endorsed by reputable medical men of Illinois.

The applicant must pass an examination in those general subjects and topics a knowledge of which is commonly and generally required of candidates for the degree of Doctor ofMedicine by reputable medical colleges in the United States.

The fee of ten dollars for an examination must be paid in advance. If not paid in person, the fee should be transmitted by postal money order, draft or check made payable to the Secretary of the State Board of Health. No responsibility will be assumed for fees transmitted in any other manner.

The fee of five dollars for a certificate can be paid in advance, or when the applicant is notified that a Certificate will be issued.

Persons desiring to take an examination should file their applications with the Secretary as early as possible, so as to enable

the Board to determine as far as practicable the number to arrange for. The affidavit and letters of recommendation must be submitted in due form to the Secretary at Springfield before the examination.

TIME AND CHARACTER OF EXAMINATION.

The examinations will be held quarterly in Chicago, at the Great Northern Hotel, in January, April, July and October, or, in exceptional instances, in the office of the Board at Springfield.

At the present time the examination comprises the following subjects: Anatomy, Chemistry, Gynecology, Hygiene, Materia Medica and Therapeutics, Medical Jurisprudence, Obstetrics, Pathology and Bacteriology, Practice of Medicine, Physiology, Surgery. Ten questions are asked on each branch, the answers to which must be written. The applicant must obtain a general average of 75 per cent.

Applicants of the Homeopathic, Eclectic or Physio-Medical Schools of Medicine will be examined in the subjects of Practice of Medicine and Materia Medica and Therapeutics, in accordance with the tenets of the respective schools.

EXAMINATIONS IN A FOREIGN LANGUAGE.

An applicant who desires to be examined in a foreign language, should notify the Secretary of the Board of the fact at least two weeks before the examination, and forward with said notification a translation fee of fifteen dollars.

RESOLUTIONS CONCERNING THE GOOD STANDING OF MEDICAL COLLEGES.

ADOPTED JULY 11, 1899.

Resolved, That the phrase "medical college or institution in good standing" in the first paragraph of Section 2, of the Act to Regulate the Practice of Medicine in the State of Illinois, in force July 1, 1899, is hereby defined to include only legally organized, properly conducted medical institutions, having a sufficient and competent corps of instructors and ample facilities for teaching, dissections, ambulatory and hospital clinics, which conform to the requirements relative to the preliminary education of matriculates, the course and period of study, the number, character and length of lecture terms, the duration of attendance on hospital and clinical instruction, which obtain in the majority of medical colleges in the United States.

Resolved, That the Illinois State Board of Health will not consider in good standing after January 1, 1900, any medical institution which does not require of all students (except graduates of reputable colleges of Arts and Sciences, or of reputable colleges

of Dentistry, Pharmacy or Veterinary Medicine, to whom one year's advanced standing may be granted) as a condition of graduation, an attendance on four full courses of lectures of at least six months each, in four separate years, no two courses commencing or ending in the same calendar year of time.

Resolved, That no medical college issuing a catalogue or announcement in which are contained misrepresentations respecting its teaching, clinical or hospital facilities, its faculty or its courses of study, or false representations as to the number of students matriculated or in attendance, will be regarded as in good standing.

RESOLUTIONS CONCERNING THE RECOGNITION OF MEDICAL COLLEGES IN ILLINOIS.

ADOPTED JULY 11, 1899.

Whereas, Section 2, of an Act to Regulate the Practice of Medicine in the State of Illinois, and to repeal an Act named therein, approved April 24, 1899, in force July 1, 1899, gives the State Board of Health discretionary power as to granting certificates without examination to graduates of legally chartered medical colleges in Illinois in good standing as may be determined by the Board, and

Whereas, It is evident, notwithstanding the discretionary power granted to the Board, that the true intent and purpose of this Act is to require all persons to prove their qualifications to the State Board of Health by passing an examination; therefore, be it

Resolved, That all applicants for a State Certificate to practice medicine and surgery in the State of Illinois, who are graduates of medical colleges in good standing as may be determined by this Board, shall, before receiving a certificate, be obliged to pass an examination such as contemplated in Section 2, of an Act to Regulate the Practice of Medicine in the State of Illinois, in force July 1, 1899.

RECIPROCITY OF STATE LICENSE.

RESOLUTION ADOPTED BY THE ILLINOIS STATE BOARD OF HEALTH, 1899.

Resolved, That applicants for a State Certificate to practice medicine and surgery in the State of Illinois, who have been examined and licensed by other State Examining Boards maintaining standards not lower than those provided for in the Act to Regulate the Practice of Medicine in the State of Illinois, in force July 1, 1899, may be granted certificates without further examination,

on payment of the fees required by the Act, providing that the applicant, who must be a graduate of a medical college in good standing with this Board, shall present with his license, statement signed by the President and Secretary of the State Examining Board under seal of the Board, showing that the requirements of said Examining Board at the time of his examination were equal to those exacted by this Board under the present law, and providing further, that the said State Examining Board will grant licenses without examination to applicants holding certificates issued by the Illinois State Board of Health under the Act now in force.

NOTE.

Under the provisions of this resolution reciprocity has been established—in the case of certificates issued after examination—with the Indiana Board of Medical Registration and Examination, the Maine Board of Registration in Medicine, the Michigan Board of Registration in Medicine, the New Jersey State Board of Medical Examiners, the Texas Board of Homoeopathic Medical Examiners and the Wisconsin Board of Medical Examiners.

The Secretary is now in correspondence with the California and Ohio Boards of Medical Examiners and the Medical Council of Delaware relative to reciprocity. It is believed that reciprocity with these states will be effected in the near future.

The Illinois State Board of Health has formally offered to reciprocate with the following named additional states, which are empowered by law to recognize certificates issued by other boards: District of Columbia, Kansas, New Hampshire, New York, Pennsylvania, Texas (Board of Medical Examiners and Board of Eclectic Medical Examiners), Virginia and Washington.

SCHEDULE OF MINIMUM REQUIREMENTS FOR MEDICAL COLLEGES

TO BE DETERMINED IN "GOOD STANDING."

ADOPTED BY

THE ILLINOIS STATE BOARD OF HEALTH,

JULY 8, 1902.

In Force January 1, 1903.

CONDITIONS OF ADMISSION TO LECTURE COURSES.

1st. Creditable certificates of good moral character signed by two physicians of good standing in the State in which the applicant last resided.

2d. As evidence of preliminary education, as a *minimum* requirement, a diploma or certificate of graduation from a high school; or a certificate signed by a principal of a regularly organized high school or by the examiner of the faculty of a recognized literary or scientific college or university, or by the State Superintendent of Public Instruction, or a Superintendent of Public Schools, of having successfully passed an examination in all the several branches embraced in the curriculum of a four years' high school course. The *matriculation examination shall not be conducted by any member of the faculty of the medical college.*

The Illinois State Board of Health will require each applicant for a State Certificate to present documentary evidence of his preliminary education together with his medical diploma, when taking the examination of the Board.

The conditions above set forth will govern in the case of all persons admitted to the Freshman Year of a medical college in "good standing," on or after January 1, 1903.

ADVANCED STANDING.

Applicants holding the degree of A. B. or B. S. or an equivalent degree from a regularly established college of Arts or Science, which requires an attendance of three or more years as an essen-

tial to graduation, may be given credit for work done in the branches of the medical curriculum of the first year and may be advanced to the Sophomore Year of a four years' medical course, on condition that they comply with the entrance requirements of this Board and that they subsequently complete the work of the Freshman Year if not already completed, and that the work already taken shall *not* be below the standard required by this Board.

The same advanced standing may be allowed on the same conditions to applicants presenting a degree from a recognized College of Dentistry or College of Veterinary Medicine, or documentary evidence of having completed in a recognized University or College of Arts or Science, the major part of the work usually embraced in the curriculum of the freshman course of a recognized medical school.

No such advanced standing shall be allowed until after the applicant shall have either graduated as indicated or performed the work specified above, and not until three months after the completion of said work.

The above requirements for advanced standing will govern in the case of all persons admitted to the Sophomore Year of a medical college on or after January 1, 1903, and may be made operative prior to that time.

Graduates of medical colleges recognized at any time by the Illinois State Board of Health may be admitted to any class without examination. Students of said colleges who possess certificates of attendance and of successful examinations, can enter without examination the term immediately following that previously attended. The student shall be required to pass an examination in all branches in which he has been found deficient. Students who have attended one or more full terms in colleges not fully recognized by this Board may be granted advanced standing in accordance with such attendance, on complying with the entrance requirements set forth in the Conditions of Admsision to Lecture Courses, and passing all examinations and performing all laboratory work of the classes below that which they enter, providing that the work already done conforms to the requirements of this Board.

Graduates or students of colleges to which no recognition is given by the Illinois State Board of Health can be granted no advanced standing whatever.

LENGTH, NUMBER AND CHARACTER OF COURSES OF LECTURES.

The college shall have a four years' course of instruction consisting of four terms, extending over a period of four calendar years, and the minimum time between the commencement of the work of the Freshman Year and the ending of the work of the Senior Year, on which all students are required to be in attend-

ance, shall be not less than forty months. No two terms begun on or after January 1, 1903, shall commence and end within any consecutive sixteen months.

The time occupied in each regular term begun on or after January 1, 1903, shall be not less than seven months or thirty weeks, and each such term shall consist of not less than eight hundred hours of work.

The branches of medicine to be included in the course of instruction shall be at least as follows: (1) Anatomy, (2) Physiology, (3) Chemistry, (4) Materia Medica and Therapeutics, (5) Theory and Practice of Medicine, including Opthalmology, Otology, Dermatology and Neurology, (6) Pathology and Bacteriology, (7) Surgery, including Orthopedic Surgery, (8) Obstetrics, (9) Gynecology, (10) Hygiene, (11) Medical Jurisprudence, (Forensic Medicine.)

ATTENDANCE.

1. Regular attendance during the entire lecture courses shall be required, allowance being made only for absences occasioned by the sickness of the student or his immediate family, such absence not to exceed 20 per centum of the course.

DISSECTIONS, CLINICS AND HOSPITAL ATTENDANCE.

1. Each student must have dissected at least the lateral half of a human cadaver.

2. He shall have received clinical and hospital instruction throughout at least two annual terms.

INSTRUCTION.

The college must have a suffcient and competent corps of instructors, and facilities for teaching, dissections, ambulatory and hospital clinics such as obtain in the majority of medical colleges in the United States.

GRADUATION.

No student shall be graduated by any medical college in "good standing" with the Illinois State Board of Health who has not completed four full terms of lectures as prescribed by the rules of the said Board (certain persons to whom advanced standing is allowed excepted) and has complied with the requirements of the said college, as set forth in the published announcement of the college, and has completed in the college by which his diploma is granted, a continuous course of lectures in the Senior Year of at least seven months in duration.

FURTHER CONDITIONS OF RECOGNITION OF MEDICAL COLLEGES.

RULE 1. Only regularly conducted and legally chartered medi-

cal colleges which conform to the conditions of admission to lecture courses, the course and period of study, the number, character and length of lecture terms, the duration of attendance on hospital and clinical instruction, as set forth in the Schedule of Minimum Requirements adopted by the Illinois State Board of Health, and the other requirements of a medical education which obtain as the practice of a majority of the established medical colleges in the United States, shall be considered medical institutions in "good standing" according to the purpose of the Act to Regulate the Practice of Medicine in the State of Illinois, approved April 24, 1899.

RULE 2. No medical college can be held to be in "good standing" until it has established its claim to such standing by an active existence of not less than four years and then only on compliance with the terms of Rule 1. *Provided*, that colleges which after a personal investigation made by a Committee of the Illinois State Board of Health, are shown to comply with the Schedule of Minimum Requirements and to possess a sufficient and competent corps of instructors, and the necessary facilities for teaching, may, at the discretion of the Board, be granted full recognition during the first year of existence.

RULE 3. All medical colleges in "good standing" with the Illinois State Board of Health will be required to publish in their annual announcements or catalogues a complete list of all matriculates and a separate list of all graduates of the session or year immediately preceding.

RULE 4. No medical college will be considered in "good standing" with the Illinois State Board of Health which publishes in its annual announcement or catalogue, or otherwise, any misrepresentations regarding the curriculum of the college or the facilities for instruction, or the number of students matriculated or graduated.

NOTE.

All colleges in "good standing" with the Illinois State Board of Health will be required to conform to the Schedule of Minimum Requirements in all regular courses commencing on or after January 1, 1903.

Advanced standing to the Sophomore, Junior or Senior Years may be granted to students who have completed courses in the Freshman, Sophomore, or Junior Years, prior to June 30, 1903, in accordance with the Schedules of Minimum Requirements heretofore adopted by the Illinois State Board of Health.

All rules and regulations governing medical colleges which have been heretofore adopted by the Illinois State Board of Health will stand repealed on December 31, 1902.

7. Etiology, pathology, symptoms, signs, treatment and prognosis of alcoholic cirrhosis of the liver.

8. Differentiate acute from chronic gastritis and give the etiology, symptomatology, physical and chemical findings in the latter, together with the drug treatment of the latter disease.

9. How would you distinguish lobar pneumonia from pleurisy with effusion?

10. What is cystitis? Give causes and treatment.

PRACTICE OF MEDICINE—HOMEOPATHIC.

1. How would you treat a case of diabetes mellitus? What diet would you prescribe?

2. Give in brief the pathology and diagnostic symptoms of acute endocarditis.

3. Differentiate between smallpox and varicella.

4. Give treatment of diphtheria.

5. Give etiology and symptoms of locomotor ataxia.

6. Name three remedies indicated in chronic constipation. Give indications for each.

7. Give cause and treatment of catarrhal stomatitis.

8. What is chorea? What is its treatment?

9. Differentiate acute pleurisy from pneumonia and give pathology of latter.

10. Differentiate alcoholic cirrhosis of the liver from passive congestion of the liver.

PRACTICE OF MEDICINE—ECLECTIC.

1. Differential diagnosis between cerebral hemorrhage and uraemia.

2. Diagnosis of chronic parenchymatous nephritis.

3. What is pleurisy, its causes and pathological anatomy?

4. What do you understand by intestinal indigestion?

5. What are the sequelae and complications of cerebro-spinal fever?

6. Define constipation and give its causes, symptoms and treatment.

7. What are the symptoms and physical signs of aortic regurgitation?

8. Give differential diagnosis between measles and scarlet fever and treatment of latter.

9. What is your treatment of cholera infantum?

10. Give differential diagnosis between follicular tonsillitis and diphtheria and treatment of latter.

PRACTICE OF MEDICINE—PHYSIO-MEDICAL.

1. Name some of the intrinsic causes of disease.

2. Briefly discuss the symptoms of disease connected with the digestive functions.

3. Those connected with the nervous system.

4. Discuss palpation of the chest, stating how usually made and of what service it is. Also describe cardiac fremitus, stating where it can be felt.

5. Discuss passive hyperaemia.

6. Give the etiology, symptomatology and pathology of capillary bronchitis.

7. The etiology, symptomatology and diagnosis of emphysema.

8. Give the physical signs of pulmonary tuberculosis.

9. Differentiate between cardiac hypertrophy and cardiac dilatation.

10. The etiology, pathology and symptomatology of enteric fever.

SURGERY.

1. Discuss drainage in general surgery by tubes and otherwise.
2. How do you treat punctured wounds of the bowels?

Requirements for "Those Who Desire to Practice Any Other System or Science of Treating Human Ailments."

INSTRUCTIONS TO APPLICANTS.

State Certificates authorizing persons who do not use medicines internally or externally and who do not perform surgical operations, to treat human ailments, are issued by the State Board of Health, on complying with the following requirements, based upon the Act to Regulate the Practice of Medicine in the State of Illinois, in force July 1, 1899.

1. The applicant must make application on the blank form furnished by the State Board of Health, to the Secretary at Springfield.

2. The application must be accompanied by Letters of Recommendation with regard to the moral and professional character of the applicant, from at least two reputable professional or business men residing in Illinois.

3. The applicant must pass an examination before the State Board of Health in the following branches, viz.: Anatomy, Physiology, Physiological and Inorganic Chemistry, Histology and Pathology, Symptomatology and Hygiene. Ten questions will be asked on each branch, the answers to which shall be in writing. An average of 75 per cent will be required.

4. The *Fee of Ten Dollars* for an examination must be paid in advance. If not paid in person, the fee should be transmitted by postal money order, draft or check made payable to the Secretary of the State Board of Health. No responsibility will be assumed for fees transmitted in any other manner.

The *Fee of Five Dollars* for a certificate can be paid in advance, or when the applicant is notified that a certificate will be issued.

5. Persons desiring to take an examination should file their applications with the Secretary as early as possible, so as to enable the Board to determine as far as practicable the number to arrange for. It is preferred that the application and letters of recommendation be submitted in due form to the Secretary at Springfield before the examination.

TIME OF EXAMINATION.

Examinations will be held quarterly in Chicago, at the Great Northern Hotel, or, in exceptional instances, in the office of the Board at Springfield. The date of the next examination will be furnished applicants when the receipt of their application is acknowledged.

EXAMINATION IN A FOREIGN LANGUAGE.

An applicant who desires to be examined in a foreign language should notify the Secretary of the Board of the fact at least two weeks before the examination, and forward with said notification a translation fee of Ten Dollars. This fee should be remitted in *a separate* order, check or draft, *or preferably in currency in a registered letter.*

Under an indictment for the crime of abortion which resulted in the death of the "mother"—the word "mother" means a woman pregnant with child. Howard vs. People, 185 Ill., 552.

ADVERTISERS OR SELLERS OF MECHANICAL INSTRUMENTS OR DEVICES TO CURE HUMAN ILLS, NOT PRACTICING MEDICINE.

The Act of 1899 regulating the practice of medicine does not include those who merely advertise, puff or sell mechanical instruments or devices though they profess their use will cure human ills.—People vs. Lehr, 93 Ill. App., 505; 196 Ill., 361.

POWER OF STATE BOARD OF HEALTH OF ILLINOIS TO REVOKE CERTIFICATES—HAS NO JURISDICTION OVER THOSE ISSUED PRIOR TO JULY 1, 1899.

The Act of 1887 to regulate the practice of medicine and surgery in Illinois being a complete revision, repeals by implication the Act of 1887, and since the Act of 1899 expressly repeals the said Act of 1887, the Act of 1899 has become the measure of power of the State Board of Health with respect to all matters embraced in the latter Act. The provision in Section 2 of the Act of 1899 to the effect that no person shall hereafter begin the practice of medicine without first obtaining a license from the State Board of Health, by implication excludes persons practicing medicine prior to July 1, 1899, when the Act took effect, and the provisions in Section 6 giving the Board of Health power to revoke such certificates refers only to certificates issued under the provisions of the Act, and the Act of 1899 does not empower the State Board of Health to discipline holders of certificates issued prior to July 1, 1899, nor revoke such certificates.—State Board of Health vs. Ross, 91 Ill. App., 281. State Board of Health vs. Ross, 191 Ill., 87.

*Many of these decisions have been rendered during the past six years. During the period from January 1, 1897, to May 1, 1903, the State Board of Health has prosecuted sixteen suits in the Supreme and Appellate courts.

DUTIES OF THE STATE BOARD OF HEALTH OF ILLINOIS.

By reference also to the Act of the General Assembly to regulate the practice of medicine in this State which provides for the examination and licensing by said Board of persons desiring to practice medicine, it clearly appears that one of the most important duties of the Board was to ascertain and certify to the qualifications of practicing physicians and surgeons and to detect quacks and prevent them and all ignorant pretenders from imposing upon the sick and helpless. Potts vs. Breen, 167 Ill., 67.

VENDORS OF SPECTACLES AND THOSE TREATING DISEASES BY FITTING OF GLASSES.—NOT PRACTICING MEDICINE.

One who causes a customer to look at objects on a wall and therefrom determines what kind of lens are needed to aid his defective vision and then has glasses ground accordingly and fitted into frames, and delivered such spectacles to his customer, is not required to first take out a license from the State Board of Health to practice medicine.

Nor is such a person required to take out a license because he advertises for those who have headache, dizziness, etc., to call upon him, where the advertisement expressly declares he does not give medical treatment and it is apparent from the advertisement that all he professes to do is to fit spectacles to the eye.—Smith vs. People, 92 Ill. App., 22. (Case appealed by State Board of Health, pending in Suprme Court.)

PHYSICIAN'S FEES.

Where a person paid a physician a certain sum to cure him of a certain disease on condition that if he failed to effect the cure such person should submit to further treatment, the physician was entitled to retain the amount agreed upon, even though the cure was not effected, if the person refused or neglected to submit to further treatment.—Madison vs. Mangon, 77 Ill. App., 651.

The plaintiff could not be made legally liable to pay for services rendered by an unlicensed physician, and hence could not recover for money paid or agreed to be paid to such physician.—City of Chicago vs. Honey, 10 Ill. App., 535.

WHAT ITINERANT VENDORS COME WITHIN THE ACT.

The right to prescribe medicines for the cure of diseases and to administer them falls clearly within the practice of medicine, and the regulation of the sale of drugs and nostrums by itinerant vendors as clearly falls within the purpose of the Act, as expressed in its title.—People for use of State Board of Health vs. Blue Mountain Joe, 129 Ill., 370.

ITINERANT VENDORS OF MEDICINE.

Where a medical company employs an agent in a certain territory and enters into a written contract with him for the sale of its drugs, prescribing his duties, manner of selling, compensation, etc., the medical company are the sellers of the drugs, etc., and as such are required to take out a license under this Act to regulate the practice of medicine in the State of Illinois.—Watkins Medical Co. vs. Paul, 87 App., 278.

LIABILITY OF PERSON WHO CALLS A PHYSICIAN.

The law does not presume from the mere summoning of the physician and requesting him to care for the sick or injured party, any implied promise by the one so acting to pay for the service of the physician.—Starrett vs. Miley, 79 Ill. App., 658.

LIABILITY OF A PHYSICIAN FOR MALPRACTICE.

A physician who has given a patient the benefit of his best judgment is not liable for negligence, even if his judgment is erroneous, unless the error is inconsistent with reasonable skill and care. And the burden of proof is on the plaintiff to show the physician's want of skill, care and diligence and that the injury complained of resulted from a failure to exercise these requisites.—McKee vs. Allen, 94 Ill. App., 147. Littlejohn vs. Arbogast, 95 Ill. App., 605. Utley vs. Burns, 70 Ill., 162. Matthei vs. Wooley, 69 Ill. App., 654. Barnes vs. Means, 82 Ill., 379.

GOOD OR REPUTABLE STANDING OF A MEDICAL COLLEGE.

The State Board of Health is possessed of discretionary power to determine whether a medical college is in good standing within the meaning of the statute and as defined in its resolutions, and when the Board has determined that fact, and such decision is adversely to an applicant for a license by virtue of a diploma issued by a medical college, such decision is not subject to review by mandamus proceedings. Illinois State Board of Health vs. People ex rel Bailey, 102 Ill. App., 614. Opinion filed July 2, 1902. People ex rel Sheppard vs. State Board of Dental Examiners, 110 Ill., 180. State Board of Dental Examiners vs. People ex rel Cooper, 123 Ill., 227.

WHAT IS INCLUDED IN THE WORDS "MEDICAL TREATMENT."

Where a physician agrees to give medical treatment to parties at a stated price, "the medical treatment" includes services in surgical cases. Clinton vs. Ramsey, 20 Ill. App., 577.

MIDWIFERY AN IMPORTANT PART OF THE PRACTICE OF MEDICINE.

The practice of midwifery is an important department of medicine, and is so recognized by and included within the provisions of the Act regulating the practice of medicine in this State.—State Board of Health vs. Arendt, 60 Ill. App., 89.

OSTEOPATHY.

See article bearing this caption following State Requirements *infra*.

PROOF OF PRACTICE.

Where persons hold themselves out as doctors, by treating, operating on, or prescribing for physical ailments, and are believed by the patients to be doctors, such persons will be held as such.—Matthei vs. Wooley, 69 Ill. App., 654.

If the appellee held himself out to the appellant and by treating and prescribing for his ailments induced him to believe he was a doctor, then he is chargeable in that character.—McNevens vs. Lowe, 40 Ill., 209.

Where the question of the practice by a physician or surgeon arises in a collateral proceeding, it will be presumed that he has obeyed the law and obtain the required license, but were he himself suing to recover for his professional services he would be required affirmatively to show his compliance with the law.—North Chicago Street Ry. Co. vs. Cotton, 140 Ill., 486.

But in the case of prosecution on behalf of the public, license or due qualifications under the statute is not presumed, and it rests with the defendant to prove it.—Williams vs. People, 20 Ill. App., 92. 121 Ill., 84.

REPORTS OF BIRTHS AND DEATHS.

The statute requiring the collection of statistics, pertaining to the population of the state and health of the people, may impart useful information in the enactment of laws valuable to science and the medical profession to whom the people look for remedies for disease and for means to preserve health, and we see that it is difficult to discover oppression or injustice in requiring the medical profession to make known to the world statistics which may promote public health.—Robinson Clerk, etc vs. Hamilton, 14 N. W. R., 202.

AS TO WHAT CONSTITUTES UNPROFESSIONAL CONDUCT AND THE POWERS OF THE STATE BOARD TO REVOKE CERTIFICATES.

* * * The State Board of Health had power to revoke certificates issued to individuals to practice medicine for the same reason it might refuse to issue such certificates, viz.: for "unpro-

fessional or dishonorable conduct." The statute in this respect, however, must have a reasonable construction. The Board cannot from mere caprice or without cause revoke a certificate fairly issued upon sufficient evidence of the holder's qualifications. The right of the citizen to practice his profession, for which he has expended time and money to qualify himself, is too important to be taken away from him without some reasonable cause. It must be from some act or conduct that would, in the common judgment, be deemed "unprofessional or dishonorable." There is no evidence in this record that shows, or tends to show, defendant was not a reputable physician, nor does it appear the State Board of Health, from any evidence submitted to it, or otherwise, ever found defendant had been guilty of any act or conduct that was unprofessional or dishonorable. It does appear, from their minutes, the Board met to investigate charges against defendant, and it is recited in the record of their proceedings, that "on the 27th day of February an advertisement appeared in the 'News-Democrat,' of Belleville, Illinois, under the caption, 'A Surgical Triumph,' and announcing that Dr. J. Cresap McCoy, late of Bellevue Hospital, N. Y., had opened an office, for a limited time only, in a building fronting on the public square, Belleville, Illinois. Copy of advertisement submitted to members of the Board. Similar advertisements appeared in the St. Louis papers, filled with matter pertaining to J. Cresap McCoy, and his wonderful attainments and success, with coarse wood-cuts of the human body and its members. After due consideration of the evidence, and on default of defense, it was ordered that certificate No. 6793, issued to Dr. J. Cresap McCoy, be revoked for unprofessional and dishonorable conduct." It will be assumed from the recital that "after due consideration of the evidence," it was on account of the "advertisements" submitted to the Board that defendant's certificate was revoked. That seems to have been regarded as "unprofessional and dishonorable conduct." So far as the contents of these "advertisements" are given, they are of a very harmless kind; but whether harmless or not, the specific charge against defendant was not for causing these publications. It was for making "statements and promises * * * calculated to deceive and defraud the public," and it is not perceived how these "advertisements" could tend in the remotest degree to prove that specific charge. Had the Board found him guilty of the charge alleged against him—that defendant had made "statements and promises * * * calculated to deceive and defraud the public"—that, indeed, would have been "unprofessional and dishonorable" conduct.—State Board of Health vs. McCoy, 125 Ill., 289, June 16, 1888.

NECESSARY FREQUENCY OF PHYSICIAN'S VISITS TO PATIENT.

The physician is considered the proper judge of the necessary frequency of his visits so long as he he is in charge of the patient.—Ebner vs. Mackey, 87 Ill. App., 306.

PHYSICIANS AS EXPERT WITNESSES.

A physician subpoenaed and interrogated as an expert witness only cannot refuse to testify upon the ground that no compensation greater than that allowed to ordinary witnesses has been paid or promised to him, and a physician refusing to testify for the reason that no special compensation has been paid or promised, the trial court is justified in fining for contempt.—Dixon vs. People, 63 Ill. App., 585; Dixon vs. People, 168 Ill., 179.

AMERICAN MEDICAL MISSIONARY COLLEGE.

The American Medical Missionary College was incorporated July 3, 1895, since which time it has been in constant operation, taking in each year a class of thirty to forty students. The friends of the college are raising two funds of $200,000 with which to provide suitable buildings. About $40,000 has already been raised, and a considerable amount has been subscribed, and there is an excellent prospect that the amount will be increased with sufficient rapidity to make it possible to put up a hospital building in Chicago the present year. At the present time the hospital facilities are confined to two buildings located at Thirty-third Place, numbers 2 and 4 and 28, and two dispensaries maintained on Halsted street and State street.

THE BENNETT COLLEGE OF ECLECTIC MEDICINE AND SURGERY.

Corner Fulton and Ada Streets.

The Bennett College of Eclectic Medicine and Surgery was incorporated March 25, 1869, and the first course of lectures was begun on the first day of November, 1868. The college was located at that time on Kinzie near the corner of La Salle street, and there were about thirty students in the college. Its location being unsatisfactory, the faculty rented the two upper floors of a building at No. 180 East Washington street, which was properly fitted up. During the great fire, this building and all that the college possessed, was completely destroyed. Within a week, however, rooms were rented and lectures commenced again in a building at the south-east corner of Twenty-second and State streets. A month later a building at 461 South Clark street was purchased and the college occupied its own building.

During the winter of 1874-1875, the old building being found too small to accommodate the number of students, a larger building was erected at 511-513 State street, and in 1877 Bennett Hospital was erected in the rear of the college. In the year 1889 it was decided to move to the corner of Ada and Fulton streets. This new building contains all the conveniences of a modern medical college, has two large amphitheatres, clinic rooms, chemical and physiological laboratories, a large dissecting room and a library. Connected with the present place is a large and well arranged hospital, accommodating about thirty patients.

The first faculty of the college consisted of seven men, two of whom remain on the faculty at the present time, Anson L. Clark, A. M. M. D., and H. K. Whitford, M. D.

FACULTY.

Henry K. Whitford, M. D., Emeritus Professor of Principles and Practice of Medicine.

THE HAHNEMANN MEDICAL COLLEGE AND HOSPITAL OF CHICAGO, 2811-13 COTTAGE GROVE AVENUE.

The Hahnemann Medical College was incorporated in 1855 by a special act of the Legislature giving to the institution very broad and liberal powers, including the founding and constructing of a hospital and dispensary. In 1892 the old buildings were torn down and the present new and commodious college buildings were erected.

In 1872 the Hahnemann Hospital of the City of Chicago was incorporated, and in 1893 erected the present hospital building. It has accommodations for one hundred and fifty patients and is complete in all appointments.

THE HARVEY MEDICAL COLLEGE.

The Harvey Medical College was first incorporated in 1891 and held its sessions for three years in the Chicago Athenaeum Building. Reincorporation took place July, 1894, and the school opened in a few rooms, corner Adams and Halsted streets. In three months a third change of management took place and five flats were rented corner Van Buren and Halsted streets. In two flats of the same building a hospital of ten beds was established and existed for one and a half years, when the needs of the school de-

manded larger quarters. The school was then moved to the heart of the down-town district of the city of Chicago. The hospital was closed, but an extra mural dispensary has always been kept in the Hull House district. This extra mural dispensary now occupies the whole of a small three story building at 230 Ewing street.

The Harvey Medical College now occupies three floors of the building, 167-169-171 South Clark street, using fourteen thousand square feet of floor space. The largest portion of this space is occupied by the well-equipped laboratories of Chemistry, Histology, Anatomy, Physics of Physiology, Bacteriology and Pathology.

THE ILLINOIS MEDICAL COLLEGE.

CHICAGO SUMMER SCHOOL OF MEDICINE.

This institution was organized under the name of "Chicago Summer School of Medicine," but some months thereafter, it was deemed advisable to change its name, accordingly by due process of law the name of the institution was changed to its present name—"Illinois Medical College, Chicago Summer School of Medicine," September 22, 1902. The College is a member of the Association of American Medical Colleges.

In January, 1902, the Illinois Medical College moved into its new buildings, purchased and equipped at the cost of over $75,000. A modernly equipped hospital, an operating room, clinical and dispensary rooms also in connection.

FACULTY.

Seth Scott Bishop, B. S., M. D., LL. D., Professor of Diseases of the Nose, Throat and Ear.

JENNER MEDICAL COLLEGE.

The college was incorporated and chartered on November 6, 1893, under the name of Harvard Medical College, and on the 26th of December, 1896, the name was officially changed to the present title of Jenner Medical College. The college has outgrown three locations and now occupies three floors at 196-98 Washington street, aggregating 10,800 square feet of space, divided into class and recitation rooms, laboratories, dispensary, clinic and dissecting rooms.

Medical and surgical clinics are held nights at the Cook County Hospital, besides work in private hospitals to which the members of the faculty belong. In addition to this the college has a large clinic of its own at the college.

FACULTY.

Stuart Johnstone, M. D., President, Professor of Gynaecology and Abdominal Surgery.
Wm. Rittenhouse, M. D.....Professor of Obstetrics
Albert E. Palmer, M. D.....Professor of Clinical Medicine
Orville Wm. Mackellar, M. D.....Professor of Clinical Surgery
E. Perry Rice, M. D.....Professor of Laryngology and Rhinology
F. B. Gottschalk, M. D.....Professor of Diseases of Children
Adolphus George Wippern, M. D.....Professor of Otology and Physiology
H. P. Kirtley, Ph. G.....Professor of Chemistry
H. M. Martin, M. D., Professor of Diseases of the Eye and Clinical Ophthalmology.
Arthur Loewy, M. D., Professor of Nervous and Mental Diseases and Practice of Medicine.

Daniel A. Orth, M. D., Professor of Physical Diagnosis and Diseases of the Chest.
Chas. Singly, M. D...Professor of Dermatology and Genito-Urinary Diseases
Walter B. Metcalf, M. D.....Professor of Diseases of the Stomach

COLLEGE OF MEDICINE AND SURGERY.

The College of Medicine and Surgery was organized and legally chartered in the year 1896. Three years later a consolidation of the Chicago Physio-Medical College (an institution organized in 1890) and the College of Medicine and Surgery was effected, the new organization being incorporated under the laws of the State of Illinois, and operating under the name of College of Medicine and Surgery, which name it still retains.

At the time of incorporation the College of Medicine and Surgery was located at 632 South Center avenue, Chicago. In May, 1902, removal was made to 245-247 Ashland Boulevard, where large rooms, well lighted and ventilated, are excellently adapted to lecture and laboratory purposes. At the Tabitha Hospital surgical clinics are conducted. Plans are now under way for college and hospital buildings, a hospital of thirty beds to be in readiness in one year's time from date of contract.

FACULTY.

THE NATIONAL MEDICAL UNIVERSITY,

533 WELLS STREET.

The National Medical University was incorporated August 21, 1891, as the National Homeopathic Medical College. On March 12, 1895, the name was changed by dropping the word "Homeopathic." On March 6, 1900, the name was again changed by substituting the word "University" for "College."

The institution with its hospital occupies two buildings covering a lot fifty by two hundred feet. The buildings contain sixty rooms. Twenty are used for college purposes, and forty for the hospital, which gives the latter capacity for fifty beds.

NORTHWESTERN UNIVERSITY MEDICAL SCHOOL.
(CHICAGO MEDICAL COLLEGE.)

HISTORY.

In the year 1859 the trustees of the Lind University of Chicago organized a medical school as a department of that University. Financial misfortunes befell Lind University and it was deemed wise that the medical school should effect an entirely independent organization. Accordingly, in 1864, it was organized anew, under the name of the Chicago Medical College. It thus existed until 1869, when it was united with Northwestern University, retaining, however, its old name of Chicago Medical College until 1891, when that name was changed to Northwestern University Medical School.

In 1890 William Deering gave $20,000 toward the purchase of the land on which the School of Medicine is located. In 1894 the same generous benefactor of the University endowed the N. S. Davis Professorship of Physiology. In 1893 Dr. Ephriam Ingals gave the Medical School $10,000 to aid in the construction of the Laboratory building. The present equipment of the Medical School consists of the Laboratory building; of Davis Hall, which is the administration building and the home of the South Side Dispensary; and of Wesley Hospital. To these facilities must be added the privilege of clinical teaching in several of the neighboring hospitals. The new surgical amphitheater just completed at Mercy Hospital enlarges and extends the facilities for clinical teaching in that institution. The college is located at 2421 Dearborn street.

FACULTY.

THE COLLEGE OF PHYSICIANS AND SURGEONS.

The name under which it was incorporated was The College of Physicians and Surgeons of Chicago. It has been changed and now is College of Physicians and Surgeons, The College of Medicine of the University of Illinois. The license to incorporate was issued July 2, 1881, the final certificate of incorporation October 14, 1881.

In 1901 the college acquired the West Division High School building, situated adjacent to the original college building. It was remodeled and equipped with every modern appliance. The buildings now occupy three quarters of the block bounded by Harrison,

Congress and Honore streets. The main college building is a brick and stone structure, four stories high, containing three large lecture rooms, clinical amphitheater, many recitation rooms and assembly hall. A three-story annex to the main building, especially designed and constructed for laboratory use, is devoted to the departments of biology, pathology and chemistry; the departments of histology and physiology occupy quarters in the main building.

RUSH MEDICAL COLLEGE.

CORNER OF HARRISON AND WOOD STREETS.

HISTORY, PLAN OF GOVERNMENT AND LOCATION.

Rush Medical College is one of the oldest institutions of learning in the Northwest, having been chartered by a special act of the legislature of the State of Illinois, in February, 1837. It was founded by the late Daniel Brainard, who was its first president. The first course of lectures was delivered in the second story of the frame building on Clark street, near Randolph, in 1843. In 1844 a college building was erected at the corner of Dearborn avenue and Indiana street, a structure which was remodeled and enlarged in 1855. In 1867 a larger building was erected on the site of the old one. This edifice was destroyed in the great fire of 1871, and for three years the college occupied a temporary amphitheater in the grounds of the Cook County Hospital, then located at Arnold and Eighteenth streets. In 1875 the present Clinical building was erected, and in 1893 a laboratory building, which greatly increased the facilities for practical instruction, was erected on the south side of Harrison street, opposite the Clinical building. The facil-

ities for clinical instruction have been largely increased the present year by the addition of the Senn Building, seven stories in height, adjoining the Clinical Building on the east. In 1887 the college became the Medical Department of the Lake Forest University, retaining, however, its autonomy. This relation was dissolved by mutual consent in April, 1898, and in the same month the present affiliation with the University of Chicago was established. In 1883 the Presbyterian Hospital, adjoining the college, was established, and the building then erected for the hospital was subsequently enlarged by the addition of the Daniel A. Jones Memorial.

SUMMARY OF THE LAWS* AND REGULATIONS GOVERNING THE PRACTICE OF MEDICINE IN THE STATES AND TERRITORIES OF THE UNION.

NOTE.

The requirements as set forth herein are substantially correct, at the present date (May 1, 1903.) There has been no attempt made to furnish a complete digest of the several laws and regulations, but rather to give the essential facts regarding the conditions of medical practice, desired by the physician who wishes to locate in a state. Information concerning the fees for examination and license, and the time and place of examinations, has been purposely omitted. Further information can be furnished by the respective secretaries, whose names and addresses are correctly given.

STATE RECIPROCITY.

(Editorial in AMERICAN MEDICINE, August 23, 1902.)

"*The way to reciprocity is to begin reciprocating*, and having begun to keep on; that seems to be a practical lesson to be drawn from the fact that a large number of State Boards empowered to do so are not in fact reciprocating—*i. e.*, recognizing the certificates of other boards. And yet the boards are composed of medical men, and their colleagues have been filling medical journals and society meetings with bitter and justified complaints as to the hardship of nonreciprocity. Why not ask, oh, ye righteously indignant, your own boards and officers and confreres to do that which they are empowered to do? There is before us a summary of the laws and regulations concerning the practice of medicine in the United States, extracted from the report of the Illinois State Board of Health of March 1, 1902 (Dr. James A. Egan, Springfield, secretary), which says that the following states are 'empowered to recognize certificates of other boards:'

California,	Pennsylvania,	Virginia,
New Jersey,	Indiana,	Michigan,
Delaware,	Puerto Rico,	Washington,
New York,	Kansas,	New Hampshire,
District of Columbia,	Texas,	Wisconsin.
Ohio,	Maine,	

"If reciprocity is desirable, and if empowered to recognize without reexamination, why do these boards not at once simply begin reciprocity?

*See "Changes and Corrections", following Official Register of Physicians, Woodford County, for new laws enacted after May 1, 1903.

"*Illinois the Leader in Practical Reciprocity.*—The Illinois State Board of Health in July, 1899, adopted, and on October 25, 1901, amended a resolution so that at present

'Applicants for a State certificate to practice medicine and surgery in the State of Illinois, who have been examined and licensed by other State Examining Boards maintaining standards not lower than those provided for in the act to regulate the practice of medicine in the State of Illinois, in force July 1, 1899, may be granted certificates without further examination, on payment of the fees required by the act, providing that the applicant, who must be a graduate of a medical college in good standing with this Board, shall present with his license a statement signed by the President or Secretary of the State Examining Board, under seal of the Board, showing that the requirements of said Examining Board, at the time of his examination, were equal to those established by this Board under the present law, and providing further that the said State Examining Board will grant licenses, without examination, to applicants holding certificates issued by the Illinois State Board of Health under the act now in force.'

"If, therefore, we do not err, the State Board of Health of Illinois is the only licensing and examining board in the United States which recognizes licenses issued by other boards without the express sanction of law. There is nothing in the law regulating the practice of medicine and surgery in the state of Illinois, in force July 1, 1899, which by implication even empowers the board to accept a license issued by another board in lieu of an examination. Yet the board over three years ago adopted the resolution quoted and since that time has enforced it. The board now stands ready, as it has in the past, to issue a certificate without examination to any person, a graduate of a recognized medical college, who has passed an examination before any State Board of Health or of Medical Examination and Registration in the United States, which has requirements *practically* equivalent to those demanded by this board, provided, of course, that the board in question will recognize certificates issued by the Illinois Board."

ALABAMA.

The Board of Censors of the Medical Association of the State of Alabama and the Boards of Censors of the several county medical societies who are in affiliation with the said Medical Association of the State of Alabama, are the authorized Boards of Medical Examiners.

An examination is required of all persons desiring to practice medicine in this state. An examination may be taken before any of the County Boards or the State Board. County Boards can examine only those who hold diplomas from reputable schools. Graduates and non-graduates in medicine may be examined by the State Board. Examination by a County Board must be reviewed and reported upon by the State Board. As a rule the examination is in writing and comprises ten different branches.

Dr. W. H. Sanders, Montgomery, is the Chairman of the State Board of Medical Examiners.

ALASKA.

There is no law regulating the practice of medicine in this territory. Itinerant physicians, in accordance with the act of June 6, 1900, pay a license of $50 per annum.

ARIZONA.

"No person shall receive a license to practice medicine within the territory unless he or she shall have: First. Obtained a diploma to practice medicine, or some department thereof, regularly issued by a medical college, lawfully organized under the laws of the state or territory wherein such college shall have been located at the time of the issuance of such diploma; and, Second, Obtained a certificate entitling him or her to practice medicine, as prescribed in Section 4, Chapter 1, of Title 53, being paragraph 3529 of the Revised Statutes of Arizona, 1901, or shall have passed a satisfactory examination prescribed by the provisions of an Act of the Legislative Assembly of Arizona, entitled, "An Act to amend an Act to regulate the practice of medicine in the Territory of Arizona," approved March 18, 1897; or, Third. Practiced medicine within the Territory of Arizona continuously for five successive years preceding the date fixed for the taking effect of this act; or, Fourth. Upon examination by the Board of Medical Examiners of Arizona, shown to the satisfaction of the Board that he or she possesses sufficient knowledge and skill to properly practice medicine; and, Fifth. Become a bona fide resident of Arizona, and shall have passed the age of twenty-one years and shall have a good moral character."

The examination is in the following branches: anatomy, chemistry, gynaecology, obstetrics, pathology, practice, surgery and such other branches as the applicant may elect.

Dr. Wm. Duffield, Phoenix, is Secretary of the Board.

ARKANSAS.

A graduate of some reputable college of medicine and surgery that requires not less than two courses of lectures, each course in a different year, as an essential for graduation, can obtain permission to practice by exhibiting his diploma to some county clerk and having the same recorded.

Non-graduates in medicine or physicians holding diplomas from colleges not complying with the requirements of the law, can obtain a certificate after an examination before a County Board of Medical Examiners. The County Court of each County appoints a board in and for the said County.

A bill for an Act providing for three State Examining Boards and requiring an examination of all applicants for a certificate, *has passed* the House and Senate and goes into effect May 17, 1903.

CALIFORNIA.

In order to procure a certificate entitling to practice in this state, the applicant must present to the State Board of Medical Examiners a diploma issued by some legally chartered medical school, the requirements of which school shall have been at the time of granting such diploma, in no particular less than those prescribed by the Association of American Medical Colleges for that year; or he must produce satisfactory evidence of having possessed such diploma, or a license from some legally constituted institution which grants medical and surgical licenses only upon actual examination, or satisfactory evidence of having possessed such license. The applicant must also be personally examined by the Board as to his qualifications to practice medicine and surgery on the following subjects: Anatomy, Physiology, Bacteriology, Pathology, Chemistry and Toxicology, Surgery, Obstetrics, Materia Medica and Therapeutics, Theory and Practice of Medicine. The Board is empowered by law to license without examination persons holding certificates from states having equal requirements, providing the licenses of California are recognized without examination in said states.

Reciprocity with other states is not yet established.

Dr. George G. Gere, 825 Market street, San Francisco, is the Secretary of the Board

COLORADO.

The laws regulating medical practice in Colorado are essentially as follows:

Those physicians holding diplomas from recognized reputable medical schools are registered upon the presentation of diplomas or other sufficient evidence of graduation. All applicants graduating after January 1, 1900, must have had four full courses—in four separate years—in medical colleges having adopted the standard of requirements equal to those of the A. A. M. C. Other physicians and undergraduates applying for licenses are examined. Only residents of Colorado are registered.

Dr. S. D. Van Meter, Denver, is Secretary of the State Board of Medical Examiners. 1723 Tremont St

CONNECTICUT.

In this state a license will be issued to any person of good character who has received a diploma from some legally incorporated medical college, and who passes an examination before any one of the three committees appointed by the State Board of Health on the nomination of the Connecticut Medical Society, the Connecticut Homeopathic Medical Society and the Connecticut Eclectic Medical Association. Each committee frames its questions and conducts its examinations and files both questions and

answers with the State Board of Health, which issues certificates of registration. The examinations are in the several branches of medicine.

Dr. C. A. Lindsley, New Haven, is Secretary of the State Board of Health, to whom applications for blank forms and for examination should be made.

DELAWARE.

The right to practice in this state is conferred only by a certificate of the Medical Council. All applicants must present diplomas from legally incorporated medical colleges. Graduates after April, 1895, must have attended three courses of lectures in different years. Applicants furthermore must pass a written examination before the Board of Medical Examiners representing the President and Fellows of the Medical Society of Delaware, or that representing the Homeopathic Society of Delaware State and Peninsula. Examinations are in anatomy, physiology, hygiene, chemistry, surgery, obstetrics, pathology, diagnosis, therapeutics, practice of medicine and materia medica.

Reciprocity of license is permitted by law with other states having a standard of requirements substantially the same as that required by the Medical Council of Delaware.

"Thus far Delaware has arranged for reciprocity with but two states, New Jersey and Maryland. The purpose of the Medical Examining Boards of Delaware is to establish reciprocal relations with those boards of other states having a standard not below our own."—Sec., Feb. 1, 1903.

Dr. W. P. Tomlinson, Wilmington, is Secretary of the Medical Council, to whom applications for examinations should be made.

DISTRICT OF COLUMBIA.

Only graduates in medicine holding diplomas from colleges recognized by the Board of Medical Supervisors of the District are eligible to the examination. Diplomas issued prior to July 1, 1898, shall be accompanied by satisfactory evidence that the applicant has studied medicine not less than three years prior to the issuing thereof, and four years if issued subsequent to June 30, 1898. Diplomas issued on two courses of lectures cannot be accepted without evidence of at least one year's additional study prior to the issue of a diploma. All examinations include anatomy, physiology, chemistry, bacteriology, pathology, materia medica and therapeutics, hygiene, histology, practice of medicine, surgery, obstetrics and gynecology, diseases of the eye and the ear, medical jurisprudence, and such other branches as may be from time to time determined by the Board of Medical Supervisors. Licenses may be issued without examination to physicians holding certifi-

cates from the examining boards of other states, providing the said Boards grant equal rights and recognition to the licentiates of the Board of Medical Supervisors of the District of Columbia. Examinations are conducted by three Boards of Medical Examiners, representing the Regular, Homeopathic and Eclectic Schools. All examinations are subject to review by the Board of Medical Supervisors.

"The Board of Medical Supervisors of the District of Columbia will reciprocate with any state or territory, the medical law of which grants to licentiates of the Board of Medical Supervisors of the District of Columbia rights and recognition in such state or territory equal to the rights and recognition grantable reciprocally to the licentiates of such state or territory."—Sec., Feb. 1, 1903.

All applications for a license must be made to the Secretary of the Board of Medical Supervisors, Dr. Wm. C. Woodward, Washington, D. C.

FLORIDA.

The law of this state requires that an applicant for a certificate shall pass an examination before the Board of Examiners of a Judicial District, a State Homeopathic Board or a State Eclectic Board. The applicant to a District Board must present a diploma from a recognized school. To the Homeopathic Board a diploma from a school recognized by the American Institute. To the Eclectic Board a certificate of graduation from an Eclectic school. There is no uniform standard for examinations. Each Board establishes its own standard.

GEORGIA.

In this state there are three boards of examiners of five members each appointed by the Governor from the Regular, Eclectic and Homeopathic schools. Each Board examines only persons making application to it, who are graduates of incorporated medical colleges, that require not less than three full courses of studies of six months each, or in the case of persons graduated prior to April 1, 1895, on two full courses of study. The applicant must appear before the Board which represents the system that he proposes to practice.

Dr. J. B. S. Holmes, Atlanta, is Secretary of the Board representing the Regular School of Medicine. Dr. R. E. Hinman, Atlanta, is Secretary of the Board representing the Homeopathic School of Medicine. Dr. M. T. Salter, Atlanta, is Secretary of the Board representing the Eclectic School of Medicine.

HAWAII.

A license to practice medicine in Hawaii Islands is granted by the Minister of the Interior on the recommendation of the Board of Health after an examination by the same Board.

Dr. J. S. B. Pratt, Honolulu, is executive officer of the Board.

IDAHO.

Graduates of reputable colleges of medicine in good standing with the State Board of Medical Examiners are eligible to examination. The applicants are examined in the applied branches of the theory and practice of medicine and surgery as are taught in the reputable schools of the system of medicine to which the applicant belongs, and in which the applicant intends to practice. At present the Board examines applicants upon twelve branches, as follows: anatomy, physiology, materia medica and therapeutics, obstetrics, gynecology, chemistry and toxicology, diagnosis, theory and practice, histology and pathology.

Dr. R. L. Nourse, Hailey, is the Secretary of the State Board of Medical Examiners.

ILLINOIS.

An examination by the State Board of Health is required of every person desiring to commence the practice of medicine in the state. An applicant must be a graduate of a medical college or institution in good standing as may be determined by the Board, and if graduating after January 1, 1900, must show evidence of having attended four courses of lectures in four separate years. The examination embraces those general subjects and topics, a knowledge of which is com-

monly and generally required of graduates for the degree of Doctor of Medicine by reputable medical colleges of the United States.

Applicants who have been examined and licensed by other state examining Boards having at the time of examination standards not lower than those required by the State Board of Health of Illinois, will be granted certificates without examination, if the examining Board in question will recognize certificates issued by the Illinois Board, under the provisions of the Act now in force.

A bill for an Act creating a State Board of Medical Examiners and regulating the practice of medicine in the state has passed the Senate and is now in the House of Representatives.

Dr. J. A. Egan, Secretary, Springfield.

INDIAN TERRITORY.

In the Cherokee Nation, all persons desiring to begin the practice of medicine must obtain a certificate from a Board of Medical Examiners of a Supreme Judical District. An examination may or may not be required of a graduate of some medical school of reputable standing. Certificates are not issued to non-graduates in medicine.

In the Creek Nation a graduate of a reputable medical college may be granted a certificate by the Board of Physicians without examination. Non-graduates are examined.

In the Choctaw Nation an examination is required of all persons, but as in the Creek Nation there is no penalty for violation of the law except that the offender shall be held to be an intruder and dealt with accordingly.

It is stated that in the above nations, as well as in the Peoria, Wyandotte and others, the laws are null and void.

INDIANA.

An examination is required of all applicants for a certificate to practice medicine in this state, except students who matriculated in an Indiana medical college before January 1, 1901, and graduate and make application to the Board prior to January 1, 1905. The applicant for an examination must have graduated from a reputable medical college, maintaining a standard of medical education prescribed by the Board. The subjects for examination are anatomy, physiology, obstetrics, gynaecology, materia medica and therapeutics, theory and practice of medicine, chemistry, surgery, pathology, bacteriology, hygiene, histology, rhinology, medical jurisprudence, ophthalmology, otology, laryngology and dermatology. The Board by law is empowered to establish and cause to be rigidly adhered to, a schedule of minimum requirements and rules for medical colleges. The Board is empowered to make and establish all necessary rules and regulations for the reciprocal recognition *of certificates* issued by other states.

"Indiana is willing to reciprocate with all sister states on the following conditions, viz.: 1st, that the applicant for reciprocal recognition must present or give satisfactory evidence of possessing a diploma from a medical institution that is recognized, at the time of application, by the Indiana Board of Medical Registration and Examination.

Second, acceptable proof must be furnished that the applicant has been examined by a legally constituted state board authorized to examine applicants to practice medicine and surgery.

The general average must be not less than 80 per cent in the subjects of examination required by the Board.

If applicant has not been examined in all the above named branches, he will be required to take a supplemental examination in such branches as have not been taken." See Feb. 1, 1903.

Dr. W. T. Gott, Indianapolis, is Secretary of the State Board of Medical Examiners.

IOWA.

From and after January 1, 1899, all persons beginning the practice of medicine in the State of Iowa, must submit to an examination in the several branches of anatomy, chemistry, materia medica, obstetrics, pathology, physiology, practice and surgery, and in addition thereto must present diplomas from medical colleges recognized as in good standing by the State Board of Medical Examiners; and all persons receiving their diplomas subsequent to January 1, 1899, must present evidence of having attended four full courses of study of not less than twenty-six weeks each, no two of which courses shall have been given in any one year.

Dr. J. F. Kennedy, Des Moines, is Secretary of the Board.

KANSAS.

In accordance with the law regulating the practice of medicine in the state of Kansas, persons desiring to commence the practice of medicine in the state shall apply to the State Board of Medical Registration and Examination and furnish evidence that they have devoted not less than three periods of six months each, no two within the same twelve months, or, if after April 1, 1902, four periods of not less than six months each, no two within the same twelve months, to the study of medicine and surgery, and submit to such examination in anatomy and histology, chemistry, obstetrics and gynaecology, materia medica and therapeutics, pathology, bacteriology, theory and practice of medicine, physiology and surgery. The law further provides that graduates of legally chartered medical institutions of the United States or foreign countries in good standing as determined by the Board, may, at the discretion of the Board, be granted a license without examination, and that the Board may in its discretion accept in lieu of examination or diploma the certificates of other Boards,

whose standards of qualifications for practice are equivalent to those of Kansas. Circular Letter No. 7 issued by the Board March 20, 1903, states that after April 1, 1902, the basis of all registration for the practice of medicine and surgery will be a satisfactory examination by the Board. No registrations will be made on diplomas or certificates from other state boards.

Dr. D. F. Lewis, Topeka, is Secretary of the Board.

KENTUCKY.

The authority to practice medicine is a certificate from the State Board of Health, which, upon application, issues a certificate to any reputable physician who is practicing, or who desires to begin the practice of medicine in this state who possesses any of the following qualifications: First, a diploma from a reputable medical college legally chartered under the laws of this state. Second, a diploma from a reputable and legally chartered medical college of some state or county endorsed as such by the State Board of Health. Third, satisfactory evidence from the person claiming the same that such person was reputably and honorably engaged in the practice of medicine in this state prior to February twenty-third, one thousand, eight hundred and sixty-four. Non-residents are not entitled to register.

Dr. J. N. McCormack, Bowling Green, is Secretary of the Board.

LOUISIANA.

All persons before entering upon the practice of medicine in any of its branches, in this State, must present to the Board of Medical Examiners a diploma from a medical college in good standing as determined by the Board, and pass a satisfactory examination. The applicant shall also satisfy the Board that he or she is twenty-one years of age, of good moral character, and possesses at least a fair primary education. The Board, composed of physicians and surgeons recommended by the Louisiana State Medical Society, examines all applicants who propose to practice any other than the Homeopathic system of medicine, and the Board, composed of physicians recommended by the Hahnemann State Medical Society, examines all applicants who propose to practice the Homeopathic system of medicine.

Dr. F. A. Larue, 624 Gravier St., New Orleans, is Secretary of the Board representing the Louisiana State Medical Society and Dr. Gayle Aiken, 1102 St. Charles Avenue, New Orleans, is Secretary of the Board representing the Hahnemann State Medical Society.

MAINE.

All persons who apply for registration in this state must present to the Board of Registration of Medicine a diploma from a medical school or college in good standing with the said Board and pass an examination in anatomy (including histology), physiology (with some reference to chemistry), pathology, including bacteriology, materia medica, therapeutics, practice of medicines, surgery (including reference to diseases of eye and ear), and obstetrics (including gynaecology). The standard of medical instruction which the Board will approve is three years of medical study and three courses of lectures for those who graduate previous to 1902 and four years' study and four courses of lectures after 1901. Five years of reputable practice before 1901 will be accepted in lieu of one year's study. Any person who is eligible for examination before this Board and who has been examined and registered or licensed by the examining Board of any other state, which maintains a standard of education at least equal to that required in this state, may be registered by this Board and have a certificate issued to him, signed by the Chairman and Secretary, upon complying with certain requirements.

We will register any person who is eligible to examination by our Board and who has been examined and received a rating of at least 75 per cent by any board that maintains a standard equal to our own and been registered by it, provided the Board will accept our certificate under similar circumstances.—Sec. Feb. 3, 1903.

Dr. A. K. P. Meserve, Portland, is Secretary of the Board.

MARYLAND.

The regulation of the practice of medicine in this State devolves upon two boards of eight members each selected respectively by the Medical and Chirurgical Faculty of the State of Maryland and the Maryland State Homeopathic Medical Society. Any person who desires to commence the practice of medicine in the state must make written application for license to either Board and to show that he is of good moral character, has received a competent common school education and has either received a diploma from a medical college of the United States requiring a four years' standard of education as defined by the American Medical College Association or the Intercollegiate Committee of the American Institute of Homeopathy or a diploma or license conferring the full right to practice all the branches of medicine and surgery in some foreign country. The requirement concerning diploma or license does not apply to any physician who has practiced outside of Maryland for at least three years prior to April 11, 1902, and has been duly registered and licensed in the place where he so practiced, or to any student who on April 11, 1902, was in

his second year in a medical college, providing he completes an attendance on three courses of lectures in different years.

All applicants are required to pass an examination in the following subjects: Anatomy, physiology, surgery, practice, pathology, chemistry, materia medica, therapeutics and obstetrics. Medical students shall on application be examined at the end of their second and fourth year, the certificates of the Boards being withheld until a diploma has been conferred. The Boards are empowered to recognize without examination certificates issued by other Boards having requirements of as high a standard as those governing the Board of Maryland. Physicians in the District of Columbia may be licensed without fee or examination.

Dr. J. M. C. P. Scott, Hagerstown, is Secretary of the Board, representing the Medical and Chirurgical Faculty of Maryland, and Dr. Jos. S. Garrison, Easton, is Secretary of the Board representing the Maryland State Homeopathic Society. Applications should be made to the Secretary of the Board before which the applicant desires to appear.

MASSACHUSETTS.

The State Board of Registration in Medicine is required to examine all persons who desire to commence the practice of medicine in this state. The examinations are wholly or in part in writing in the English language, and of a scientific and practical character. They include the subjects of anatomy, surgery, physiology, pathology, obstetrics, gynaecology, practice of medicine and hygiene, and shall be sufficiently thorough to test the applicant's fitness to practice medicine. The applicant must be over twenty-one years of age, and of good moral character.

Dr. E. B. Harvey, State House, Boston, is the Secretary of the Board.

MICHIGAN.

The Board of Registration in Medicine in this state is empowered by law to license without examination "graduates of * * * reputable colleges of medicine having at least a three years' course of eight months in each year, or a course of four years of six months in each year, * * as shall be approved and designated by the Board of Registration." Other graduates and non-graduates are to be examined by the Board. Reciprocity with other states is permitted.

The Board has published a list of "approved and designated" colleges in which are noted the following Illinois institutions: Rush Medical College, Northwestern University Medical School, College of Physicians and Surgeons, Hahnemann Medical College and Hospital, Chicago Homeopathic Medical College, Bennett College of Eclectic Medicine and Surgery, Northwestern University Woman's Medical School, Illinois Medical College.

A bill for an act requiring the examination of all persons who desire to commence the practice of medicine in the state is pending in the legislature.

Dr. B. D. Harison, Saulte Ste Marie, is Secretary of the Board.

MINNESOTA.

All persons who hereafter commence the practice of medicine and surgery in this state must apply to the Board of Medical Examiners for a license, and the applicant, at the time and place designated by the Board, or the regular meeting of the Board. must submit to an examination. Graduates prior to July 1, 1887, must present evidence of having attended two courses of lectures in different years, if their diploma dates later than July 1, 1887, and prior to January 1, 1899, three courses are required, and if subsequent to January 1, 1899, four courses.

After January 1, 1902, applicants for license to practice medicine and surgery must present evidence of having attended four (4) full courses at a medical college recognized by the Minnesota State Board of Medical Examiners, of at least twenty-six weeks each, no two courses being in the same year. Graduates of medical colleges granting advanced standing for work done at other than medical colleges are not eligible to the examinations given by the Board. The above does not apply to such students as have been granted advanced standing prior to September, 1901. "Non-graduates are not admitted to examination." Sec S. B. M. E.

Dr. C. J. Ringnell, Minneapolis, is Secretary of the Board.

MISSISSIPPI.

Any person who desires to obtain a license to practice medicine and surgery can apply in writing to the State Board of Health and be examined by this Board touching his learning in the following branches of medicine: anatomy, chemistry, obstetrics, materia medica, physiology, pathology, surgery and hygiene.

Dr. J. F. Hunter, Jackson, is Secretary of the Board.

MISSOURI.

Any person who desires to commence the practice of medicine in this state can appear before the State Board of Health and be examined as to his fitness. The examination embraces the subjects of anatomy, chemistry, physiology, pathology, therapeutics, obstetrics, gynaecology, surgery, practice of medicine, medical jurisprudence, bacteriology and hygiene.

Any student who matriculated in a medical college in Missouri prior to March 13, 1901, will be granted a certificate without examination.

Dr. W. F. Morrow, Kansas City, is Secretary of the Board.

MONTANA.

All persons wishing to practice medicine in this state must apply to the State Board of Medical Examiners for a certificate and present a diploma from a medical school, legally organized and in good standing, and submit to an examination in such branches of medicine as the Board may deem advisable. The applicant must also present evidence of having attended four courses of lectures of at least six months each, if he graduated after July 1, 1898. Reciprocity with other states is permitted.

Dr. Wm. C. Riddell, Helena, is Secretary of the Board.

NEBRASKA.

A graduate of a legally chartered medical school or college in good standing with the State Board of Health may obtain a certificate by presenting a diploma to the Board and paying the required fee. Applicants graduating after July 1, 1891, must have attended three courses of lectures of six months each in three separate years. Applicants graduating after August 1, 1898, must have attended four courses of lectures in four separate years. Diplomas from foreign colleges are not recognized unless the holders are authorized to practice in the country in which the diplomas were issued. A law has just been passed by the legislature providing for an examination for all candidates for license to practice medicine in Nebraska, and will go in force on August 1, 1903. The applicant must be a graduate of a medical college in good standing.

Dr. Geo. H. Brash, Beatrice, is Secretary of the Board.

NEVADA.

Certificates are issued by the State Board of Medical Examiners without examination to the following persons: (a) graduates of reputable and legally chartered medical institutions of the United States, which are in good standing with the Board; (b) persons who have received licenses from the State Examining Boards of any state of the United States "providing the holder of said State Certificates has been practicing in this state (presumably Nevada) for at least five years." The Board examines persons who have been engaged in the practice of medicine in Nevada for at least five years, and graduates of foreign medical colleges, in all subjects relating to the practice of medicine and surgery.

Dr. S. L. Lee, Carson City, is Secretary of the Board.

NEW HAMPSHIRE.

The Superintendent of Public Instruction, *ex-officio*, is the Regent of the State Board of Medical Examiners. He will admit to

examination any candidate who pays a fee of ten dollars and submits satisfactory evidence, (1) that he is more than twenty-one years of age, (2) is of good moral character, (3) has graduated from a registered college or satisfactorily completed a first course in a registered academy or high school, or had a preliminary education considered and accepted by the regents as fully equivalent, (4) has studied medicine not less than four full school years of at last nine months each, including four satisfactory courses of at least six months each, in four different calendar years, in a medical college registered as maintaining at the time a satisfactory standard (the regent will accept as the equivalent or any part of the third and fourth requirements, evidence of five or more years' reputable practice, provided that such substitution be specified in the license,) (5) or has either received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practice medicine in some foreign country. Subjects for examination: chemistry, surgery, physiology and hygiene, anatomy, obstetrics, pathology and diagnosis, therapeutics. Applicants examined and licensed by other state examining boards, registered by the Regent as maintaining standards not lower than those provided above, and applicants who matriculate in a New Hampshire medical school before January 1, 1898, and who received the degree of M. D. January 1, 1903, may, without further examination, on payment of five dollars to the Regent, and on submitting such evidence as may be required, receive an endorsement of their licenses or diplomas conferring all rights and privileges of the Regent license issued after examination.

"The reciprocity clause is not enforced, and probably will not be at present."—Regent State Board of Examiners, Feb. 5, 1903.

Hon. Channing Folsom, Concord, is Regent of the three State Boards of Examiners, representing respectively the Regular, Homeopathic and Eclectic Schols.

NEW JERSEY.

Applicants for a license in this state must present evidence that they are graduates from an accredited literary or scientific college, or have completed satisfactorily not less than a three years' course in an accredited high school or academy, or have received a preparatory education covering the following branches, viz.: orthography, arithmetic, English grammar and composition, geography, history of the United States, algebra and physics, or, what the State Board of Medical Examiners may consider their equivalent. Each applicant must also present to the State Board of Medical Examiners evidence of having studied medicine for four years and of having attended at three courses of medical lectures in different calendar years in a legally incorporated medical col-

lege in good standing, and pass a written examination in materia medica and therapeutics, obstetrics and gynaecology, practice of medicine, including diseases of the skin, nose and throat, surgery, including surgical anatomy and diseases of the eye, ear and genito-urinary organs, anatomy, physiology, chemistry, histology, pathology and bacteriology, hygiene and medical jurisprudence. The law empowers the Board to establish reciprocal relations with other Boards having substantially the same standard of requirements. The Board has adopted as a basis of endorsement the personal fitness and professional qualifications of the candidate plus a State certificate of license issued after examination in substantially the same medical branches and under essentially the same conditions as the law of this State and the regulations of this Board require.

"New Jersey now reciprocates with Maine, Delaware, Maryland, Virginia, Illinois and Washington, and endorses New York and Pennsylvania."—Sec. Jan. 16, 1903.

After July 4, 1903, the following changes in the requirements for a New Jersey license will go into effect.

1. The academic requirements will be a certificate or diploma, issued after four years of study, either in a normal, manual training or high school of the first grade, in this State, or in a legally constituted academy, seminary or institute of equal grade, or a student's certificate of examination for admission to the freshmen class of a reputable literary college or an academic education considered and accepted by the State Superintendent of Public Instruction as fully equivalent.

2. The medical requirements will be four full school years of medical study, of at least nine months each, including four satisfactory courses of lectures of at least seven months each, in four different calendar years, in a legally incorporated medical college or colleges, prior to receiving the degree of Doctor of Medicine.—(Circular State Board of Medical Examiners.)

Dr. E. L. B. Godfrey, Camden, is the Secretary of the Board.

NEW MEXICO.

An Act to Regulate the Practice of Medicine and provide for a Board of Health in New Mexico prescribes that the said Board shall, upon the production of evidence satisfactory to it, license any person who is the holder of a diploma from a medical college in good standing to practice medicine, surgery and obstetrics in New Mexico, and shall require all persons, not the holders of such diplomas, to pass such examination as to the Board shall seem proper, before licensing any such person to engage in the practice of medicine, surgery and obstetrics.

Extract from Rulings of the New Mexico Board of Health: "For the purpose of determining what are medical colleges in good standing under the act of the Legislative Assembly, Chapter

18, Law of 1901, creating this Board, the following are recognized and established as such, viz.: The University of Pennsylvania, Harvard University, Johns Hopkins University, Columbia University of New York, University of Missouri (Columbia, Mo.), Yale University, Ann Arbor or University of Michigan and University of Minnesota.

"The diplomas granted by the above named institutions after July 1, 1902, shall entitle the holder thereof to a license to practice without examination, upon complying with the other conditions prescribed by this Board. All other applicants, whether holding diplomas from any school or college, or not, dated before the first day of July, 1902, are required to pass the examination prescribed by this Board."

Dr. W. G. Hope, Albuquerque, is Secretary of the Board.

NEW YORK.

The regulation of the practice of medicine of this state is under the control of the Regents of the State University by whom the three State Examining Boards representing the three schools of medicine are appointed. The examinations are conducted by a Regent's examiner and the answers are rated by the members of the Board. An applicant to practice must show evidence of a high school education or its equivalent, and of having studied medicine not less than four full years of at least nine months each, including four full satisfactory courses, and at least six months in four different calender years. Applicants who graduated before January 1, 1902, need not show evidence of more than three courses of lectures. Each applicant must pass a thorough examination in anatomy, physiology and hygiene, chemistry, surgery, obstetrics, pathology and diagnosis, and therapeutics, including practice and materia medica. The Regents are empowered to recognize licenses issued in other states, but "we do not at present accept licenses issued by any other State Board as the Boards of Medical Examiners have not considered licenses issued by any other Board of a standard equal in all respects to that of this State."—Sec. Jan. 11. 1903.

James Russell Parsons, Jr., Albany, is Secretary of the Regents of the University.

NORTH CAROLINA.

The law requires an examination of all applicants by the State Board of Medical Examiners in surgery, physiology and hygiene, anatomy and histology, obstetrics and gynaecology, practice of medicine, materia medica and theropeutics, chemistry and pharmacy. To be eligible to examination the candidate must present a diploma from a medical college in good standing, which requires of

its graduates after January 1, 1900, an attendance on not less than three years, or a license or other satisfactory evidence of standing as a legal practitioner in another state.

Dr. Geo. W. Presse, Charlotte, is Secretary of the Board.

NORTH DAKOTA.

An applicant for a license must present evidence of having attended three courses of lectures of at least six months each, and pass an examination before the State Board of Medical Examiners, in the following branches: Anatomy, physiology, chemistry, histology, materia medica, therapeutics, diseases of women and children, diseases of the nervous system, diseases of the eye and ear, medical jurisprudence, and such other branches as the Board deems advisable.

Dr. H. M. Wheeler, Grand Forks, is Secretary of the Board.

OHIO.

An applicant for examination before the Ohio State Board of Registration and Examination must present evidence of preliminary education equivalent to that covered in a four years' course in a high school, or pass an examination conducted by certified examiners under the direction of the Board, and present a diploma from a medical institution in the United States in good standing with the Board, or a diploma or license approved by the Board, issued in some foreign country. Each applicant will be examined in the following subjects: anatomy, physiology, chemistry, materia medica, practice, pathology, obstetrics, physical diagnosis and diseases of women and children, but an examination will not be required of any medical student who was matriculated on January 1, 1900, in any medical college in the state of Ohio, recognized by the State Board of Medical Registration and Examination of Ohio, and who shall have graduated subsequent to January 1, 1900, and who shall have filed his or her diploma for registration prior to July 1, 1904. The law empowers the Board to license without examination applicants holding certificates issued by other state Boards having equal requirements. Reciprocity has not yet been established.

Dr. Frank Winders, Columbus, is Secretary of the Board.

OKLAHOMA.

No person hereafter shall practice medicine or surgery in this territory without first obtaining a license from the Territorial Board of Health. Application for license shall be made in writing, together with a fee of five dollars, accompanied by a proof of good moral character, and proof of ten years' continuous practice or

proof of graduation from a reputable medical college. When the application has been inspected by the Board and found to comply with the foregoing provisions, the Board shall notify the applicant to appear for examination at a time and place designated in such notice. Examination shall be made in whole or in part in writing and be sufficiently strict to test applicant's qualifications to practice medicine. All members of the Board shall be present and participate in such examination.—Section 5, Act of 1903. In force March 12, 1903.

The applicant must pass an examination before the Board in the following branches, viz.: anatomy, chemistry, physiology, materia medica and therapeutics, medical jurisprudence, surgery, obstetrics, physical diagnosis and the general practice of medicine and attain a grade of 66 2-3 per cent in each branch.

Dr. E. E. Cowdrick, Enid, is Secretary of the Board.

OREGON.

An applicant for a license must make an affidavit to the State Board of Medical Examiners setting forth the actual time spent by him in the study of medicine, and pass such examination as the Board shall deem advisable.

Dr. Byron E. Miller, Portland, is Secretary of the Board.

PENNSYLVANIA.

Applicants for the state examination are required by law to submit to the Medical Council evidence of a preliminary education equivalent to a high school course (or pass a preliminary examination) and present a diploma from a legally incorporated medical college of the United States or a diploma or license conferring the right to practice in some foreign country and pass an examination in anatomy, physiology. hygiene, chemistry, surgery, obstetrics, pathology, diagnosis, therapeutics, practice of medicine and materia medica. The rules of the Medical Council require that a preliminary examination shall be required from all candidates for medical licenses, in the following branches, towit: arithmetic, grammar, geography, orthography, American history and English composition. The diploma of a college, diploma of an academy, seminary, normal school, or high school, or a teacher's permanent certificate, or a student's certificate of examination for admission to the freshman class in a literary college, shall be accepted in lieu of such examination. Applicants who received their degrees in medicine since the first day of July, 1894, must have pursued the study of medicine for at least three years, including three regular courses of lectures in different years, in some legally incorporated medical college, prior to the granting of the diploma or license, and after the first day of July, 1895, such applicants must have pursued the

study of medicine for at least four years, including three regular courses of lectures in different years, in some legally incorporated medical college, prior to the granting of the diploma or license. Examinations are conducted by the Boards representing the Regular, Homeopathic and Eclectic Schools of Medicine, but application should be made to the Medical Council. The law contains a reciprocity clause,* which is practically inoperative. "The Medical Council accepts nothing but licenses from the state of New York." —Secretary, Dec. 1, 1902.

Hon. James W. Latta, Harrisburg, is the Secretary of the Medical Council.

PHILIPPINES.

In accordance with the provisions of an Act Regulating the Practice of Medicine and Surgery in the Philippine Islands enacted Dec. 4, 1901, it shall be unlawful after March 1, 1902, for any person to practice medicine in any of its branches in the Philippine Islands unless he holds a certificate of registration from the Board of Medical Examiners for the Philippine Islands. Such certificates are granted without examination to persons engaged in the practice of medicine in the Philippine Islands prior to the passage of this Act who submit to the Board of Medical Examiners a diploma of Doctor of Medicine from a reputable medical school or college, to certain students in the St. Thomas University in the City of Manila and to persons who have passed the examination before a Board of Examiners convened pursuant

*WHY IS RECIPROCITY REFUSED?

A physician, a graduate of a reputable college recognized by the Pennsylvania Board, and licensed by the Illinois State Board of Health after examination, made application to the Medical Council recently for a license in Pennsylvania, based upon the Illinois certificate. In reply the applicant was informed that the Council recognized no licenses except those issued by New York, this leaflet accompanying the letter:

"All applicants for license to practice medicine in Pennsylvania, with the exception of those holding certificates from the State of New York, are required to pass examination before one of the State medical examining boards."

In the interest of a needed and just reciprocity we would like to know why the Pennsylvania Board refuses reciprocity with Illinois? The Illinois State Board of Health stands ready to recognize, at any time, licenses issued by the Medical Council of Pennsylvania, after examination, to graduates of medical colleges in good standing with the Illinois State Board of Health, providing, of course, that the Medical Council of Pennsylvania will recognize licenses issued by this board, after examination, to graduates of accredited colleges. Does the Pennsylvania Board contend that the requirements in Illinois and in several other states are not as high, are not even higher than in Pennsylvania? The entire profession has been clamoring for practical reciprocity; why do its agents and representatives deny it when it is possible, and every demand of justice is satisfied?—American Medicine, Philadelphia.

to special order No. 5 and Circular No. 6 of the United States Military Government of the Philippine Islands, dated respectively February 25 and April 1, 1900. Every other person desiring to begin the practice of medicine and surgery in the Philippine Islands must apply to the Board of Medical Examiners for a certificate of registration as Doctor of Medicine, and submit to an examination in the usual branches of medicine and also present a diploma of Doctor of Medicine from a medical school or college recognized as reputable by the Board of Health of the Philippine Islands.

The Board of Medical Examiners meets in the city of Manila for the purpose of examining candidates, on the second Tuesday in January, April, July and October of each year.

Applications for examination should be made to the Secretary-Treasurer of the Board of Medical Examiners of the Philippine Islands, Manila.

PUERTO RICO.

A physician desiring a license to practice his profession in Puerto Rico must present a diploma or certificate of graduation to the Secretary of the Superior Board of Health, and pass such examination as the Board may prescribe before a committee appointed by the Board.

Applicants who possess diplomas from reputable medical colleges, and who have been licensed by state Boards, may be licensed by the Superior Board of Health without examination if the Superior Board of Health so decides.

Dr. Wm. F. Smith, San Juan, is the Secretary of the Board.

RHODE ISLAND.

The authority to practice medicine in this state is a certificate from the State Board of Health, and the Board shall, upon application, after examination, issue a certificate to any reputable physician who intends to practice medicine or surgery in this state and who shall present himself before the State Board of Health and pass in a satisfactory manner an examination in anatomy and physiology, chemistry and materia medica, pathology, surgery, theory and practice, obstetrics and gynaecology, hygiene and medical jurisprudence.

Dr. Gardner T. Swarts, Providence, is Secretary of the Board.

SOUTH CAROLINA.

It is the duty of the State Board of Medical Examiners to examine all applicants for examination, who hold diplomas from

any medical colleges or schools, who present certificates of good moral character, and to grant to each successful applicant a certificate entitling him to practice medicine in the State. The Board requires an examination in the following subjects: anatomy, general and regional, physiology and histology, chemistry, toxicology, practical urinalysis, materia medica, and therapeutics, surgery and surgical pathology, practice and diseases of children, obstetrics and gynaecology. The medical law of the state was amended on the 15th of February, 1901, so as to exclude from the provisions of the Act of 1893 all graduates holding diplomas issued by "any college of established reputation in the state of South Carolina which has a four years' course of instruction and a standard of not less than seventy-five per cent on examination, who make satisfactory evidence of their standing to the State Board of Medical Examiners." In accordance with the opinion of the Attorney General of the state, such graduates are not only exempt from examination, but are not required to make application for license to the Board, or pay a fee. This amendment, however, seemingly does not refer to a graduate who has taken a four years' course, but refers to and is descriptive of a college which has a four years' course of instruction. To use the words of the Attorney General: "the limitation applies directly to the institution. When a college conforms to these qualifications and issues a diploma to a graduate, whether he has attended three years or five or six years, the mere granting of a diploma and the evidence of his standing having been made to the State Board of Examiners, the graduate is exempt from the provisions of Section 970, vol. 1, of the Revised Statutes of 1893. * * * It must be left to the college to decide whether in a given instance a young man is capable of understanding or completing a four years' course within less than four years of actual time occupied in the pursuit of study within the walls of the institution."

Dr. S. C. Baker, Sumter, is Secretary of the Board.

SOUTH DAKOTA.

A law recently enacted in South Dakota provides for the creation of a State Board of Medical Examiners and an examination of all persons not already authorized to practice. This law is now in force.

The applicant must be a graduate of a recognized medical college. Applicants who graduated since 1898 must show evidence of having taken four full courses of lectures in separate years. The examination is in the usual branches of medicine.

Reciprocity with other states is permitted.

Dr. H. E. McNutt, Aberdeen, is Secretary of the Board.

TENNESSEE.

The law requires an examination in the following branches, viz.: anatomy, physiology, chemistry, pathology, surgery, obstetrics, materia medica and practice. Any applicant of good moral character is eligible to examination by the State Board of Medical Examiners.

Dr. T. J. Happel, Trenton, is Secretary of the Board.

TEXAS.

Any person over twenty-one years of age ,of good moral character, is eligible to the examination by any one of the three Board of Medical Examiners for the state of Texas, representing the three schools of medicine. Each applicant shall be examined in the following branches: anatomy, physiology, chemistry, materia medica, therapeutics, histology, pathology, practice of medicine, surgery, including diseases of the eye, ear, nose and throat; obstetrics, gynecology, hygiene and medical jurisprudence. Applications for license must be made to the President or Secretary of the Board before which the applicant desires to appear. The law provides for reciprocal relations with other states having equal requirements.

Dr. M. M. Smith, Austin, is Secretary of the Board of Medical Examiners for the state of Texas. Dr. N. O. Berizer, Austin, Secretary of the Board of Homeopathic Medical Examiners of the State Board of Texas, and Dr. L. S. Downs, Galveston, Secretary of the Board of Eclectic Medical Examiners for the state of Texas.

UTAH.

The State Board of Medical Examiners will issue certificates to all applicants who furnish proof of having received diplomas from medical colleges of good standing in the states where they exist and who pass a satisfactory examination before the Board in obstetrics, anatomy, chemistry, pathology, physiology, gynaecology, surgery, materia medica, practice and hygiene.

Dr. R. W. Fisher, Salt Lake City, is Secretary of the Board.

VERMONT.

The regulation of the practice of medicine in this state is under the control of the Board of Censors of the state medical societies. Each examining Board apparently fixes its own standards. Section 4631 provides that each Board shall issue certificates to physicians who present to each examining Board a diploma from a medical college and who by examination satisfy the Board that they

are entitled to practice. Section 4632 reads as follows: "A person not a resident of the state who has not received a diploma from a chartered medical college shall obtain a certificate from a Board of Censors in the state before he shall be permitted to practice the medical art therein." Reciprocity with other states is permitted by a 1903 amendment to the law.

Dr. S. W. Hammond, Rutland, is Secretary of the Board representing the Vermont State Medical Society. E. B. Whittaker, Barre, is Secretary of the Homeopathic Board, and Dr. P. L. Templeton, Montpelier, is Secretary of the Eclectic Board.

VIRGINIA.

The State Board of Medical Examiners of this state is required to admit to examination any person who presents a diploma from some medical college chartered by the state in which the same is situated. The following resolution was adopted by the Board at its meeting held at Staunton, June 24-27, 1901: "Resolved, That the Medical Examining Board of Virginia will in the future decline to recognize the diploma of any college which does not conform to the requirements of the Association of Medical Colleges." When an applicant shall have made an examination satisfactory as to his proficiency, a certificate will be issued him. At present time the examination comprises the following subjects: Hygiene and medical jurisprudence, anatomy, physiology, chemistry, histology, pathology and bacteriology, materia medica and therapeutics, obstetrics and gynaecology, practice and surgery.

"The Board shall have in their discretion authority to accept, in lieu of examination of an applicant, a diploma or other satisfactory evidence of the graduation of the applicant in some medical college chartered by the state or territory in which the same is situated and a certificate from the Examining Board of any other state or territory in which the same is situated and a certificate from the Examining Board of any other state or territory of the United States or the District of Columbia, showing that such applicant has passed a satisfactory examination as to his proficiency and obtained a license from said Board to practice medicine and surgery in said state, territory or district, provided that any person who was examined by the State Examining Board prior to January 1, 1900, and whose fee for such examination was duly paid but who failed to pass said examination, shall have the right and privilege of taking the examination before the State Board notwithstanding the provisions of this act."

"Replying to your letter in regard to what states Virginia will reciprocate in the matter of medical licensure, will say, the following resolution prevents us, at present, from reciprocating with any: "Resolved, That the Virginia State Medical Examining Board desires to reciprocate with the Boards of other states, but deem it necessary for its own protection that every applicant

claiming such recognition shall present with his petition a diploma from a reputable college, together with an attested certificate from a State Medical Examining Board, having same requirements as our Board, and shall pass a satisfactory oral examination before a committee of the Board. Having complied with these requirements a certificate will be issued on payment of the usual fee." Sec., February 2, 1902.

Dr. R. S. Martin, Stuart, is Secretary of the Board.

WASHINGTON.

An applicant for a license to practice medicine and surgery in this state must be a graduate* of some duly authorized medical college now having at least a three years' graded course. Each applicant must submit to such examination as the State Board of Medical Examiners shall deem advisable. The Board may accept licenses issued by other states.

Dr. J. P. Turney, Davenport, is the Secretary of the Board.

WEST VIRGINIA.

The following persons only are permitted to practice medicine in this state. First, those legally entitled to practice medicine in the state on the 22d of February, 1895; second, those who pass an examination before the State Board of Health and receive certificates from the Board. The examinations cover all the essential branches of the science of medicine and surgery, including anatomy, chemistry, bacteriology, hygiene, materia medica, physiology, practice, surgery, gynaecology and obstetrics.

Dr. A. R. Barbee, Point Pleasant, is Secretary of the Board.

WISCONSIN.

Any person commencing the practice of medicine or surgery shall apply to the State Board of Medical Examiners and submit to an examination in the various branches of medicine and surgery *and* present to said Board a diploma from a reputable medical college that requires at least four courses of not less than six months each before graduation; no two of said courses to be taken within any one twelve months, and that shall after the year 1901 require for admission thereto an elementary education equivalent to that necessary for entry to the junior class of an accredited high school of this state, including one year's course in

*An act containing this requirement passed the House of Representatives, February 8, 1901, and the Senate February 14, 1901. The Act was vetoed by the Governor, and passed over the Governor's veto by the House of Representatives on February 28, 1901, and passed over the Governor's veto by the Senate February 28, 1901.

Latin, and for graduation from said medical college at least four courses of not less than seven months each; no two of said courses to be taken within any one twelve months, provided, however, that any student who is now matriculated in any medical college of Wisconsin which requires four courses of six months each as a prerequisite of graduation, no two courses to be taken within one twelve months, shall on presentation of his diploma from such medical college and on payment of the fees specified in this act be admitted to practice without further examination by the State Board of Medical Examiners.

Under Chapter 306, law 1901, the Board is empowered to exempt from examination any practitioner of medicine holding a certificate from any other state board imposing requirements equal to those established by the Board who may on presentation of the same with a diploma, be admitted to practice in this state without an examination, at the discretion of the Board, on the payment of the fee. In construing this section of the law, the Attorney General of the State has advised the State Board of Medical Examiners, that a practitioner who holds a certificate from a state board which now imposes requirements equal to those imposed by the Statutes of Wisconsin, may be licensed without examination, even though at the time the person received a certificate, the requirements in his state were not the same as those now exacted in Wisconsin.

A bill for an Act raising the standard of requirements is now in the legislature.

"Wisconsin will reciprocate with any other state having equal requirements."—Secretary, January 30, 1903.

Dr. Filip A. Forsbeck, Milwaukee, is Secretary of the Board.

WYOMING.

A graduate in medicine desiring to practice in this state shall be issued a certificate by the State Board of Medical Examiners, providing he presents a diploma issued by a medical college of recognized merit, said college being a member of the American Association of Medical Colleges, the Homeopathic Institute or the National Eclectic Medical Association, or any college of similar standing in foreign countries. Persons holding diplomas, certificates or other credentials from schools or institutions of other than recognized merit, may be examined by the Board in the usual branches of medicine.

Dr. C. P. Johnson, Cheyenne, is Secretary of the Board.

OSTEOPATHY.

Osteopathy (OSTEON—a bone, PATHOS, suffering), "a system, method or science of treating diseases of the human body," is legalized and its practice is regulated by legislative enactments in the following states: Arizona, Arkansas, California, Connecticut, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Vermont, Virginia and Wisconsin. In Massachusetts and Texas osteopaths are exempt from the provisions of the medical law of the state.

A bill legalizing the practice of osteopathy* passed the legislature of Illinois in 1897, but was vetoed by Governor John R. Tanner. A similar measure passed the Senate of Illinois in 1899, but failed of passage in the House of Representatives. Under the provisions of the medical law of Illinois enacted in 1899, the State Board of Health is empowered to examine and license persons who desire to practice any certain "system or science of treating human ailments, who do not use medicines internally or externally and who do not practice operative surgery," the said examination to "be of a character sufficiently strict to test their qualifications as practitioners." Any person is eligible to this examination, which embraces the following subjects, in each of which ten questions are asked: Anatomy, chemistry, histology and pathology, hygiene, physiology and symptomatology. An applicant receiving an average rating of 75 per cent in this examination is issued a certificate by the State Board of Health on the subjoined blank form.

All persons thus licensed are prohibited by the statutes of Illinois from calling or advertising themselves as physicians or doctors.

In addition to the states mentioned, the practice of osteopathy is seemingly permitted in the following, although technically prohibited by law: Alabama, Colorado, Delaware, District of Columbia, Florida, Idaho, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Utah, Washington, West Virginia and Wyoming. The laws of Maine and New Hampshire permit the practice of magnetic healing, mind cure, massage, christian science or other methods of treatment in which no drugs are used. Prosecutions have been attempted in Georgia, Kentucky, Louisiana, Mississippi, Pennsylvania, Utah and undoubtedly other states, with varying results. In but one instance in these states last named has the higher court rendered a decision on the practice of osteopathy, namely, in Kentucky. Says the court in this case (Nelson v. State Board of Health, 57 S. W. R. 501), "appellant is in no proper sense a physician or surgeon. He does not practice medicine. He is rather on the plane of a trained nurse. If by kneading and manipulating the body he can give relief from suffering, we see no reason why he should not be paid for his labor, as other laborers. Services in kneading and manipulating the body are no more the practice of medicine than services in bathing a patient to allay his fever or the inflammation of a wound. Appellant may not prescribe or administer medicine or perform surgery but so long as he confines himself to osteopathy, kneading and manipulating the body without the use of medicine or surgical appliances, he violates no law and appellee (the State Board of Health) should not molest him."

Court decisions favorable to the contention that the practice similar to that of osteopaths is *not* the practice of medicine as defined by the statutes, have been rendered in the following states: Kentucky, (Nelson v. State Board of Health, supra), Mississippi, (recent case not cited), New York (Smith v. Lane, 24 Hun., 632), North Carolina (State v. MacKnight, 42 S. E. R., 580), Ohio (State v. Liffering, 55 N. W. R., 168), and Rhode Island (State v. Myloid, 40 A. R. 753). Since the filing of the opinion in the case of State v. Liffering, the legislature of the State of Ohio has legalized the practice in the state.

Contrary decisions have been rendered by the Supreme Courts of Alabama, (Bragg v. State, 32 S. R., 767) of Nebraska (State v.

Buswell, 58 N. W. R., 758, and Little v. State, 84 N. W. R., 248)—but Senate Bill 102, approved 12:23 a. m. April 1, 1901, decreed that "the system, method or science of treating disease of the human body commonly known as osteopathy, is hereby declared not to be the practice of medicine, surgery, or obstetrics within the meaning of Sections seventeen (17) and eighteen (18) Article one (1) of Chapter fifty-five (55) Compiled Statutes of Nebraska, 1899, and entitled 'Medicine,'"—and of Illinois (People v. Gordon, 194 Ill., 560, opinion filed February 21, 1902.) The Supreme Judicial Court of Massachusetts in March, 1835, (Hewitt v. Charier, 16 Pick 353) held that a person who practiced bonesetting and reducing sprains, swellings and contractions of the sinews, by *friction* and *fomentation*, but no other branch of the healing art, practiced surgery within the meaning of the statutes.

The State Board of Health of Illinois has long held that persons who held themselves out as competent to treat disease and practiced what is known as "osteopathy" and "magnetic healing" were practicing medicine as defined by the statutes. Many suits have been instituted by the Board against persons who were deemed violators of the law. In the majority of instances, the judgment of the lower courts was in favor of the defendants. This was notably so in the case of the so-called "magnetic healers" who, it is alleged, used both mental and physical agencies in their treatment. The higher courts, however, with one exception, have sustained the ruling of the Board, and the question has been finally settled by the Supreme Court of Illinois in a clear and concise statement of the law governing the case, in which it is held that "services in kneading and manipulating the body" (See Nelson v. State *ante*) *are* "more the practice of medicine than services in bathing a patient to allay his fever or the inflammation of a wound." The Court (People v. Gordon, *supra*) says: "merely giving massage treatment or bathing a patient is very different from advertising one's business or calling to be that of a doctor or physician, and as such administering osteopathic treatment. The one properly falls within the profession of a trained nurse, while the other does not." In this case the judgment of the Appellate Court, in the case of the People v. Gordon, 96 Ill. App., 456, was reversed.

The judgment of the higher courts referred to will be found in the following: Eastman v. People, 71 Ill. App., 236; W. D. Jones v. People, 84 Ill. App., 453; People v. B. E. Jones, 92 Ill. App., 447, and People v. Gordon, 96 Ill. App., 456, the latter, which was reversed by the Supreme Court, holding that "a person who assumes the title of 'doctor,' calls his business 'magnetic healing,' and advertises to cure many diseases by magnetic healing or vital magnetism, but does not prescribe medicines * * * is not engaged in the practice of medicine as contemplated by the Medical Practice Act of 1899." In the case of Eastman v. People (opinion filed June 16, 1897), the principles governing in the case are so clearly set forth that it has been deemed proper to publish the

following extract from this opinion, which was held by the Supreme Court of Illinois four years later to be the correct interpretation of the law.

"This is an appeal from a judgment for one hundred dollars as a penalty for practicing medicine without a license, under Par. 10, Ch. 91 R. S. It appears that the appellant was engaged in the practice of 'The Profession of Osteopathy,' as it is termed in the briefs; that he had an office where he received patients and that he visited patients at their homes; that he advertised his system and skill therein by publications in the newspapers and that he professed ability to understand and treat human ailments intelligently and successfully.

"So far as shown his treatment consisted wholly of rubbing and manipulating the affected parts with his hands and fingers, and by flexing and moving the limbs of the patient in various ways.

"It is insisted on his behalf that because he used no medicine or instruments he is not amenable to the statute.

"Par. 14 of Ch. 91 declares that 'Any person shall be regarded as practicing medicine within the meaning of this act who shall treat, operate on or prescribe for any physical ailment of another.'

"It is argued on behalf of appellant that this provision must receive reasonable interpretation and that to 'treat' implies the use of medicine or drugs of some sort. This is not so necessarily. Many of the minor operations are effected without the use of instruments, by mere pressure, extension and flexing.

"This of course implies some knowledge of anatomy and some skill. So many forms of disease are treated by attention to the diet, habits and mode of life, without resorting to medical remedies.

It is said by counsel that if the statute reaches this case it must include treatment by Turkish baths, massage and the like.

"We think not. The evidence shows that appellant held himself out as competent to treat and cure numerous diseases, such as all forms of fevers, cerebro spinal meningitis, kidney diseases, measles, paralysis and many others, including in fact a large proportion of the ailments common to mankind. He represented himself as a graduate of the new school of 'osteopathy' and held himself out as qualified to examine and treat all who might seek his aid.

"Herein he differs from those who give Turkish baths, massage and the like.

"He professes to be able to diagnose and advise in respect to a long list of diseases and to furnish discriminating and efficient treatment to those who come and try him, and while he may rely wholly upon manipulation, flexing, rubbing, extension, &c., yet he professes to have skill and judgment in these methods, so as properly to adapt the treatment of each case, giving it what is appropriate, in amount, and with repetition at such times and to such

extent as may be dictated by his knowledge and experience. By his skill in the use of his peculiar remedies or methods he claims to be competent to relieve and cure various ailments, and therefore he invites patronage. * * * We are of the opinion that the proofs bring appellant within the act and that he is liable to the penalty imposed thereby for practicing medicine without a license."

Opinions of Attorney General of Illinois, 1901-1902.

OPINIONS* OF ATTORNEY GENERAL OF ILLINOIS ON MEDICAL PRACTICE ACT—EXPENSE OF SMALL POX PATIENTS—REPORTS OF BIRTHS AND DEATHS.

PHYSICIANS OR DOCTORS—WHO MAY CALL OR ADVERTISE THEMSELVES AS SUCH.

October 18, 1901.

Dr. J. A. Egan, Secretary State Board of Health, Springfield, Ill.

DEAR SIR—In answer to your inquiry as to what class of licentiates of the State Board of Health may call or advertise themselves as physicians, or doctors, will say:

* * * * * * *

Section 3 of the Act provides that—

"if the applicant successfully passes his examination or presents a diploma from a legally chartered medical college in Illinois, of good standing, the board shall issue to such applicant a license authorizing him to practice medicine, midwifery, or other system of treating human ailments as the case may be. * * * * * *Provided further*, That only those who are authorized to practice medicine and surgery in all their branches shall call or advertise themselves as physicians or doctors."

It is evident from the plain reading of the statute that only those persons authorized by the board to practice medicine and surgery in all their departments, shall be entitled to advertise or call themselves physicians or doctors.

Very Respectfully,

H. J. HAMLIN,

Attorney General.

QUARANTINE, ETC.—LIABILITY OF MUNICIPALITIES FOR EXPENSE OF.

Under divisions 76 and 77, section 1 of article 5 of the chapter on cities and villages, Hurd's Revised Statutes, 1899, page 277, provision is made for the appointment of a Board of Health by cities and villages. By an act approved May 10, 1901, session laws 1901, p. 91, provision is made by which the Board of County Commissioners in counties not under township organization, and the supervisor, assessor and town clerk in every town in counties under township organization, shall constitute a board of health. And it is further provided in said act that if the boards of health

*These opinions, which will undoubtedly be of interest to physicians of Illinois, are taken from the Report and Opinions of Attorney General of Illinois, 1901-1902, just received. While, as will be noted, many of these opinions pertain to the administration of sanitary laws, and hence do not come within the scope of this report, it has been thought proper to publish all rendered on medicine and sanitation.—Sec'y, 7-18-'03.

created thereby shall fail to enforce the provisions of the act, that the State Board of Health may take charge and discharge the duties devolved by said act upon such boards, and collect from the county or township, as the case may be, reasonable costs, charges and expenses incurred in the enforcement thereof. Under these several provisions of the statutes, boards of health may enforce quarantine regulations and health laws; may establish small-pox hospitals and quarantine persons affected with contagious diseases, either in their homes or in hospitals provided under the general provisions of the statute.

Section 24, chapter 107, entitled, "Paupers," Hurd's Statutes 1899, page 1261, provides:

"When any non-resident or any person not coming within the definition of pauper, of any city or town, shall fall sick, not having money or property to pay his board, nursing and medical aid, the overseer of the poor of the town or precinct in which he may be, shall give or cause to be given to him, such assistance as may be deemed necessary or proper, or cause him to be conveyed to his home subject to such rules and regulations as the county board may prescribe, and if he shall die, cause him to be decently buried."

Under this provision of the statute, when a person within the designation of this statute falls sick, whether with small-pox or some other disease, the county in which he shall have fallen sick is liable for the necessary expenses of his nursing, provisions and medical attendance; however, not at the price which shall be agreed upon between some person or municipality taking charge of such sick person, but at such price as the service or supplies furnished is reasonably worth.

The expense of enforcing health laws and quarantine regulations always falls upon the city, town or county enforcing such regulations and cannot be charged by a city enforcing such regulations, against a county in which said city may be located.

The obligation of a county to care for a person falling sick under the provisions of the statute above quoted, is absolute, whether such supplies are furnished by an individual or by a city, and has no relation whatever to the expense of enforcing quarantine regulations.

County of Perry v. City of DuQuoin, 99 Ill. 479.

Where one is taken from his home and confined in a small-pox hospital, possibly against his will, and expenses are incurred for his board and nursing while therein, whether he comes within the provisions of the pauper act or not, such person is not liable for his care, supplies and medical attention while so confined, but such evpenses will fall upon the city, town or county enforcing the quarantine.

This, however, is not true where one, not temporarily a pauper, is simply quarantined in his home, not sequestered from his family, but allowed to use his own means of support, being simply regulated by the rules adopted by the Board of Health for the protection of the community. And in such case he is liable for and must pay

the expense of his care, medical attention and supplies, but the expense of guards, supervising his premises and enforcing quarantine regulations thereon, are chargeable against the city, town or county under whose authority the quarantine is being enforced.

H. J. HAMLIN,
Attorney General.

MEDICINE—PERSONS PRACTICING ILLEGALLY AT TIME ACT OF 1899 WENT INTO EFFECT, SUBJECT TO THAT ACT.

September 14, 1901.

Dr. J. A. Egan, Secretary State Board of Health, Springfield, Ill.

DEAR SIR—Your favor of the 12th inst. at hand, asking the opinion of this office as to whether persons who were practicing medicine in this State prior to the enactment of the act approved April 24, 1899, entitled "An act to regulate the practice of medicine in the State of Illinois and to repeal an act therein named," without a certificate from the State Board of Health, is exempt from the provisions of that law.

The second section of the act of 1899 provides,

"No person shall hereafter *begin* the practice of medicine or any of the branches thereof, or midwifery, in this State, without first applying for and obtaining a license from the State Board of Health to do so."

Section 9 of the act provides that any person practicing medicine or surgery or treating human ailments in this State without a certificate issued by this Board in compliance with the provisions of this act, or any itinerant vendor violating the provisions of section 8 of this act, shall for each and every instance of such practice or valuation, forfeit and pay to the People of the State of Illinois, for the use of the State Board of Health, the sum of $100 for the first offense, etc., and at the concluding part of this section is the provision that this section shall not apply to physicians who hold unrevoked certificates from the State Board of Health, issued prior to the time of the taking effect of this act.

The first act regulating the practice of medicine was passed in 1877, and the penal section of that act was substantially like the section last above quoted except as to the proviso which is that "the provisions of this act shall not apply to those who have been practicing medicine ten years within the State."

The act of 1887 is a substitute for the act of 1877 and the penal section of the act is substantially like the penal section of the act of 1877.

The language of the penal section of each of these acts is such as to include any person practicing medicine or surgery without a certificate issued in compliance with the provisions of the act in force. The proviso defines such persons as are taken out of the operation of the general words of the statute and the Supreme Court having held that the act of 1899 repeals all previous acts,

there is no question arising as to the construction of any of the previous acts.

The previous acts upon this subject, however, may be considered as bearing upon the question of legislative intent, and there is no question but what the act of 1877, and the act of 1887, both made it a penal offense to practice medicine without a license. While it was intended, doubtless, by the legislature, to provide that no person should practice medicine or any of its branches without first applying for and obtaining a license from the State Board of Health, the word "begin" is inserted in the first sentence of section 2 of the Act of 1899 and but for the language of section 9, which is more specific and expressly includes all persons practicing without a certificate, it would undoubtedly be held that persons who were engaged in the practice at the time the act of 1899 was passed, could not be required to have a certificate from the Board of Health to authorize them to practice.

The case of the Board of Health vs. Ross, 191 Ill., 87, while passing upon kindred questions to the one you submit, does not pass directly upon the point here submitted and the opinion herein expressed does not conflict with any view expressed by the court in that case.

I am of the opinion that persons who were illegally engaged in the practice of medicine at the time the act of 1899 went into force, are subject to the penalties of this act.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

CERTIFICATE—POWER OF BOARD OF HEALTH TO REVOKE CERTIFICATE OBTAINED BY FALSE REPRESENTATIONS.

July 1, 1901.

Dr. J. A. Egan, Secretary State Board of Health, Springfield, Ill.

DEAR SIR—Replying to your favor of the 25th ult. in which you say that application for a certificate of qualification to practice medicine was made to the Board of Health on June 30, 1899; that the rules of the board were not complied with on that occasion and that the diploma was not presented and that the certificate was refused in August, 1899, and the fee returned. That in the year 1900, the applicant again applied to the board, stating that his goods had been delayed in transit and his diploma was with his household goods, and the board thereupon ordered a certificate to be issued to the applicant without examination and such certificate was issued June 30, 1900.

It is now ascertained that the diploma claimed to have been held by the applicant was fraudulent or was obtained by him through fraud; that he did not graduate as stated by him and that his certificate was obtained by false representations to the State Board of Health. You ask whether the board, under such circum-

stances, has the power to revoke this certificate. In reply permit me to say it is a general rule of law that fraud vitiates all acts and all benefits or advantages obtained from the fraud and misrepresentation of the beneficiary, may be revoked. You do not state in your letter what the fraudulent act consisted of, but I assume, however, that it was substantial and misleading and that it constituted a material element in procuring the certificate. The act of 1895, which was in force at the time the certificate was issued, conferred no power upon the board to issue the certificate except to an applicant successfully passing his examination or to one presenting a diploma from a legally chartered medical college in Illinois, of good standing. It seems from your letter that the certificate was caused to be issued through the fraudulent misrepresentations of the applicant and also was issued without authority of law. Under the circumstances stated I am of the opinion that upon giving proper notice the board may now revoke the license in the case referred to.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

ITINERANT VENDOR—BOARD MAY REFUSE LICENSE TO.

May 14, 1902.

Dr. J. A. Egan, Secretary State Board of Health, Springfield, Ill.

DEAR SIR—Answering your inquiry in relation to the right of one who has made application for a license as an itinerant vendor of drugs, under section 8 of the Medical Practice Act to practice his vocation under such license before his license is granted, and whether it is discretionary with the board to issue such license, I would say:

Said section provides that any itinerant vendor of any drug, nostrum, ointment or appliance of any kind, intended for the treatment of disease or injury, who shall by writing or printing or any other method, profess to the public to cure or treat disease or deformity by any drug, nostrum or application, shall pay a license of $100 per month into the treasury of the board, to be collected by the Board in the name of the People of the State of Illinois for the use of said board. And it shall be lawful for the State Board of Health to issue such license on application made to said board, license to be signed by the president of the board and attested by the secretary with the seal of the board; "but said board may, for sufficient cause, refuse said license."

Under the provisions of this section it is my opinion that when the applicant has complied therewith, he is entitled to have a license issued to him according to its tenor, unless sufficient cause exists for the board to refuse such license. The cause which would be recognized by the courts as a sufficient cause, is not attempted to be defined by the statute, and that is left in some considerable

uncertainty, depending largely upon the facts of each particular case, and to that extent the board is vested with discretionary power, and when a license is refused by the board in good faith for some reasonable cause assigned by the board, I think such action would be justified.

It is the general rule that one who must be authorized by license to do an act, cannot justify the doing of such act without a license where he has complied with the legal requirements to entitle him to the issue of the license.

11 Am. & Eng. Ency. of Law, 1st ed., 636-7.

The rule established in this State, however, is that where the provisions of the law in relation to the issue of a license are certain and the right upon compliance with such provisions, to the issue, is an absolute right, that after a compliance therewith such person can justify his act the same as though the license had issued, notwithstanding compliance with the provisions of the law.

Prather vs. People, 85 Ill., p. 36.

However, I do not consider the statute in question as one where this rule would apply. Under the facts of the Prather case, nothing remained to be done but simply to issue the license. The money had been paid, bond submitted, and the ordinances of the city provided that upon such compliance the clerk should issue the license, which, however, he withheld. In this case the statute contemplates that the board of health shall be in session as a board and that the license shall be issued by it and not by its secretary. Moreover, the question of whether a sufficient cause exists for a refusal of the license is one to be judicially determined by the board, and no right to the license exists until that question is determined.

I am therefore of the opinion that one who has complied with the provisions of this statute to the extent he may comply with them when the board is not in session, could not justify selling under such compliance with the statute, but that he would have to wait until the license actually issued before he could legally sell.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

ITINERANT VENDORS—OF DRUGS, ETC., CONSTITUTIONALITY OF ACT RELATING TO.

Dec. 19, 1901.

Hon. W. H. McDonald, State's Attorney, Greenup, Ill.

DEAR SIR—In answer to yours of the 17th inst. will say section 11 of the Medical Practice Act of June 16, 1887, has been passed on and held constitutional in the case of The People vs. Blue Mountain Joe, 129 Ill., 370. This entire section was copied

into the act of April 24, 1899, and is there numbered section 8. Various phases of the act have been passed upon in the following cases:

Williams vs. The People, 121 Ill., 84;
City of Chicago vs. Wood, 24 App., 40;
Chicago vs. Honey, 10 *Id.* 535;
The People vs. McCoy, 125 Ill. 289;
The People vs. Lehr, 93 App. 505.

From an examination of the above authorities you will probably gain the desired information.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

SMALL-POX HOSPITAL—POWER OF CITY TO ERECT OUTSIDE OF CORPORATE LIMITS; QUARANTINE AND HEALTH LAWS; POWER OF CITIES TO ENFORCE IN TERRITORY WITHIN HALF MILE OF CORPORATE LIMITS.

Dec. 3, 1901.

Dr. J. A. Egan, Secretary State Board of Health, Springfield, Ill.

DEAR SIR—Your recent favor in relation to the construction of section 44 of Article 3 of the Cities and Villages Act, and also the 77th clause of section 1 of article 5 of the same act, is received and noted. You inquire what the powers of city councils and boards of trustees are with reference to jurisdiction over places within half a mile of city or village limits, for the purpose of enforcing health and quarantine regulations, and also with reference to the power of a city or village, under clause 77, to establish a small-pox hospital upon lands leased or owned by the city or village outside of its limits and within a half mile thereof.

In my opinion the construction you say you have been placing on this act is the correct one, *i. e.*, that boards of trustees and city councils have jurisdiction over all territory within half a mile of village or city limits, though this territory may be in another municipality, for the purpose of enforcing quarantine regulations and health laws, with the limitation that the exercise of such power shall not conflict with the rights of adjacent municipalities to exercise the same power. There is no question but what a city or village may erect and maintain upon its own land, or land leased by it, a small-pox hospital, outside of the city limits and within the territorial jurisdiction fixed by the statute, and the only limitation upon that right would be that it should not be so exercised as to conflict with the rights of individuals or another municipality having concurrent jurisdiction over the same territory. This view is supported by the case of Chicago Packing Co. vs. City of Chicago, 88. Ill., 221.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

Dec. 6, 1901.

Dr. J. A. Egan, Secretary State Board of Health, Springfield, Ill.

DEAR SIR—In answer to your inquiry of this date, will say in my communication to you under date of December 3rd, I stated to you that it was my opinion that a city or village may erect and maintain on its own land or land leased by it, a small-pox hospital outside the city limits and within the territorial jurisdiction fixed by the statute, and the only limitation upon that right would be that it should not be so exercised as to conflict with the rights of individuals of another municipality having concurrent jurisdiction over the same territory. If a small-pox hospital is so located within the limits of another city or village as to conflict with the concurrent jurisdiction of such city or village over the same territory, then it would be a violation of the rights of such city or village. But if it was so located as not to in any way interfere with the health of the other city or village, I see no reason why patients might not be taken from the city establishing the hospital to such hospital and be there cared for.

In your letter of the 21st ult. you make this statement, referring to the hospital you seem to have in mind:

"The hospital, although located within the corporate limits of an adjoining municipality, is a sparsely settled territory and seemingly, so far as the interest of public health is concerned, is rightfully located and can be well conducted."

Your letter was before me when I expressed the opinion given in my letter of the 3rd inst, and I had such a hospital in mind as you described. But if you suppose a case where the hospital is to be located in a populous district in the adjacent municipality, which would in itself be a public nuisance and endanger the public health, and suppose, moreover, that such hospital was about to be erected in violation of a quarantine established by such city, the action of establishing a hospital in such a place would certainly violate the rights of citizens living in that district and the jurisdiction of the city in which such hospital was being located.

I hope this conveys clearly my meaning.

Very Respectfully,

H. J. HAMLIN,

Attorney General.

QUARANTINE—WHO TO PROSECUTE FOR VIOLATION OF.

March 6, 1902.

Hon. J. W. Thompson, State's Attorney, Louisville, Ill.

DEAR SIR—Your favor of the 4th inst. is at hand. I assume from your letter that the State Board of Health assumed quarantine powers in your city under the supposed authority of the act approved May 10, 1901, Laws 1901, p. 91, and under section 2, chapter 126a R. S. The proviso to the act of 1901 is specific that nothing in this act shall apply to any territory within the corpor-

ate limits of any incorporated city or village. It follows that the penalties imposed for the violation of the provisions of that act or of a quarantine established under it could not be imposed for a violation of some supposed quarantine regulations within a city or village. If your village authorities have passed an ordinance relating to quarantine and persons have failed to comply with the provisions of the ordinance, then it would be a matter for the city authorities to prosecute for a violation of the city ordinances, but I do not see from the facts stated in your letter or from the facts contained in a letter written by Dr. Burgett to Dr. Egan, Secretary to the State Board of Health, that you, as State's Attorney, have any authority to act or duty to perform in the matter. Chapter 126a of the Revised Statutes does not impose any penalty upon the individual who violates or fails to comply with the quarantine rules announced by the board of health.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

QUARANTINE—WHO TO PROSECUTE FOR VIOLATION OF.

March 6, 1902.

Dr. J. A. Egan, Secretary State Board of Health, Springfield, Ill.

DEAR SIR—I have your inquiry accompanied by letter of Dr. W. E. Burgett, of Louisville, Illinois, asking whether it is the duty of the State's Attorney to prosecute for a violation of the quarantine established in the city of Louisville, Illinois, referred to in the letter of Dr. Burgett.

In reply permit me to say I am advised that the State Board of Health acted under the provisions of section 2, chapter 126a of the Revised Statutes in establishing a quarantine in the city of Louisville. That section provides that the State Board of Health shall have charge of all matters pertaining to quarantine and shall have authority to make such rules and regulations and such sanitary investigation as they may from time to time deem necessary for the preservation or improvement of public health and that section makes it the duty of all police officers, sheriffs, constables and other officers and employes of the State, to enforce such rules and regulations.

The act does not impose any penalty for violation of the rules or orders of the board, by persons not officers. If it is sought to enforce a penalty under the provision of the act to create and establish boards of health, etc., approved May 10, 1901, it may be said that that act specifically provides that anything contained therein shall not apply to any territory lying within the corporate limits of any incorporated city or village.

I am of the opinion that under the facts stated there is no authority or duty imposed upon the State's Attorney of the county to prosecute any person for violating the orders of the State Board

of Health in establishing a quarantine in the City of Louisville. If officers did not enforce the quarantine, no penalty can be imposed against the individuals who failed to observe it.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

QUARANTINE AND PEST HOUSE—WHO TO ASSUME COST.

May 10, 1901.

W. E. Kneeland, Esq., Griggsville, Ill.

DEAR SIR—In answer to yours of the 6th inst, will say I am of the opinion that where a city establishes a pest house and quarantine for contagious diseases, that the cost cannot be collected from the township in which such city may be located. The last clause of section 1 of article 4 of the township organization law seems make the provisions of that law apply only to that part of the town lying within the corporate limits of any incorporated city or village.

However, it is no part of the official duty of the Attorney General to give advice in these matters, and what I have said must not be taken as an official opinion of this office. You will, in all probability, have a suit over the matter, in which event you will employ counsel and take his advice.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

QUARANTINE—EXPENSES OF, BY WHOM PAID—PAUPERS AND POOR, AFFLICTED WITH CONTAGIOUS DISEASE, EXPENSES OF, BY WHOM PAID.

July 17, 1901.

Hon. Charles S. Cullen, State's Attorney for LaSalle County, Ottawa, Ill.

DEAR SIR—Your favor of the 16th inst. is at hand, enclosing letter from Hon. John McLauchlan.

In counties under township organization, where the poor are supported by the county, and where persons are afflicted with contagious disease, and a quarantine is established by a township, or the city authorities, for the protection of the community, the expenses of the quarantine must be borne by the township or by the city establishing it. If the persons afflicted with the contagious disease are unable to support themselves and are a public charge, the county may pay such sum as the county board may deem reasonable and proper for the support of the pauper. This does not include, however, the expenses incurred by reason of the quarantine. It is usual for the county to support its paupers in the county poor house; however, it is not unusual nor improper for

the county board to render temporary aid to needy persons outside of the county poor house, where temporarily unable to support themselves or where able to partially support themselves.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

PAUPER—NON-RESIDENT, LIABILITY FOR EXPENSES OF IN CASE OF SICKNESS.

April 17, 1902.

Hon. A. J. Boutelle, State's Attorney, Galesburg, Ill.

DEAR SIR—Your favor of the 9th inst. received and the same has had the careful consideration of this office. I note that you desired an answer before the meeting of the board of supervisors, which took place on the 15th inst., and I regret that owing to the crowded condition of work in this office the same has not been reached until now.

I herewith enclose a copy of an opinion upon a kindred question to the one you submit, which has had a wide circulation in the State.

The exact question which you submit is whether the liability for board, nursing and medical aid, furnished to a non-resident or a person not coming within the definition of pauper of any city or town, who shall fall sick, is chargeable to the township in which the person is at the time such supplies are furnished, or to the county. There are several counties in the State of Illinois in which the paupers of such counties are supported by the townships, but generally such expense falls upon the county.

Section 14 of the Pauper Act provides that every county except those in which the poor are supported by the towns, shall relieve and support all poor and indigent persons lawfully resident therein, except as herein otherwise provided.

Section 15 provides that every town in counties in which the poor are supported by the towns as provided by law, shall relieve and support all poor and indigent persons lawfully resident therein, except as herein otherwise provided by law.

In my opinion the two sections quoted should be construed in connection with section 24 quoted in the written opinion herewith enclosed, and when so construed, that the exception referred to in these two sections is where the person relieved is not within the definition of pauper of any city or town or is a non-resident, and that in those cases the liability which primarily rests upon the county by this provision of the statute, is made to fall there.

This question has been passed upon by the Appellate Court for the Second District, and that Court, in the case of the County of Kankakee vs. The Town of Manteno, 68 App., 366, says:

"We are of the opinion that all cases coming within that section (section 24) are county charges."

It seems to us that there can be no other construction of these several sections of the statute, and whether the county is one in which the poor are supported by the county or the township, the rule is the same.

I note the rules adopted by your board of supervisors and will say that I do not think any power exists in the board of supervisors to relieve the county of a liability imposed by statute by the passage of a resolution or the adoption of rules in conflict with the Statute.

I note, however, that after making the exceptions, first, as to persons not resident in the town wherein aided; second, as to persons too sick to be removed, and third, persons having contagious diseases, the rule says:

"And the county will not be responsible for relief given outside of the Alms House except in the above quoted cases, Nos. 1 and 2, and then only when the relief has been ordered by the overseer of the poor in the town where the relief is given,"

which seems to recognize the liability of the county for relief furnished under the direction of the overseer of the poor to persons not removed to the almshouse.

However, I regard these rules as wholly nugatory, as regulations for the purpose of relieving the county from liability and imposing the same upon the townships. There is no doubt but that a board of supervisors, by the adoption of reasonable regulations for the treatment of paupers and their reception into the almshouse, may, to a large extent, control the furnishing of supplies to paupers and limit the liability of the county by so controlling supplies furnished. But where supplies are furnished to a sick person with a contagious disease, under the direction of a board of health, and it appears that the person is in quarantine or that the supplies were properly furnished and necessary to the patient, in my opinion such facts would constitute such an emergency as would render the rules of the board inoperative and create a liability upon the county independent of such rules.

In cases where supplies are indiscriminately furnished by persons having no authority, to those claiming the benefit of section 24, and in disregard of reasonable rules adopted by the board of supervisors for the furnishing of such supplies, I do not believe that a liability would be thereby created against the county. I remain,

Very respectfully,

H. J. HAMLIN,
Attorney General.

SMALL-POX QUARANTINE—EXPENSES OF, BY WHOM TO BE BORNE.

April 23, 1902.

Hon. Wm. Tefft, State's Attorney, Peoria, Ill.

DEAR SIR—In reply to your recent inquiry in relation to the liability of the County of Peoria for the expenses of erecting a

small-pox pest house and the employment of guards and other officers and agents in the enforcement of small-pox quarantine by the City of Peoria, I would say:

Sec. 24, Chap. 107, entitled, "Paupers" Hurd's Stat. 1899, p. 1261, provides:

"When any non-resident or any person not coming within the definition of pauper, of any city or town, shall fall sick, not having money or property to pay his board, nursing and medical aid, the overseer of the poor of the town or precinct in which he may be shall give or cause to be given to him, such assistance as may be deemed necessary or proper, or cause him to be conveyed to his home, subject to such rules and regulations as the county board may prescribe, and if he shall die, cause him to be decently buried."

Under the provision of the statute, when a person within the designation thereof falls sick, whether with small-pox or some other disease, the county in which he shall have fallen sick is liable for the necessary expenses of his nursing, provisions and medical attention.

County of Perry vs. City of DuQuoin, 99 Ill. 479.

Under the provision of Divs. 76 and 77, Sec. 1 of Art. 5 of the chapter on Cities and Villages, city councils are empowered to appoint a board of health and establish small-pox hospitals. By an Act approved May 10, 1901, Session Laws 1901, provision is made by which the board of county commissioners in counties not under township organization, and the supervisor and assessor and town clerk, in every town in counties under township organization, shall constitute a board of health. And it is further provided in said Act that if the boards of health created thereby shall fail to enforce the provisions of the Act, that the State Board of Health may take charge and discharge the duties devolved by said Act upon such boards and collect from the county or township, as the case may be, reasonable costs, charges and expenses incurred in the enforcement thereof.

Under the provision of Sec. 24 of the Pauper Act, cities and villages are not liable for medical attention, nursing and supplies furnished to paupers in the enforcement of a small-pox quarantine, and in caring for such persons. Neither does that provision of the statute render the county liable for the enforcement of the quarantine or the erection of pest houses. In the enforcement of small-pox quarantine either by a county, town, city or village, it becomes necessary to employ guards, disinfect infected places, erect hospitals, furnish bedding and other supplies for pest houses, and destroy the same when it has served its use. These things come clearly within the purview of health laws and the enforcement of quarantine or health regulations and have nothing to do with the liability of the county for support of its poor.

The statute approved May 10, 1901, expressly recognizes that these expenses shall be borne by the district or municipal division enforcing the quarantine. Such liability is not expressly recognized under the city and village Act, yet the power is conferred

to enforce such regulations by cities and villages under the provisions of that Act, and the same being done under city or village authority, by city or village officers, would certainly render the city or village enforcing the same liable for all such expenses as I have enumerated, not coming within the provisions of section 24 of the Pauper Act.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

SMALL-POX PATIENTS—LIABILITY OF COUNTY FOR PAYMENT OF EXPENSES OF.

April 23, 1902.

Hon. S. W. Crowell, State's Attorney, Oregon, Ill.

DEAR SIR—Your favor of the 22nd inst. in relation to the question of whether the county or the township is liable in your county for supplies, nursing and medical attention to small-pox patients who temporarily fall sick in your county and are not able to pay the expense of such supplies, nursing and medical attention, is received and noted. The section upon which such liability is based is section 24, chapter 127, entitled "Paupers," Hurd's Statutes 1899, p. 1261, which you will find quoted in a printed opinion herewith enclosed.

Section 14 of the Pauper Act provides that every county, except those in which the poor are supported by towns, shall relieve and support poor and indigent persons lawfully resident therein, except as herein otherwise provided.

Section 15 provides that every town in counties in which the poor are supported by the towns, as provided by law, shall relieve and support all poor and indigent persons lawfully residing therein, except as herein otherwise provided by law. These two sections both recognize that there is some case in which there shall be liability independent of actual residence.

Section 24 above quoted applies only to any non-resident person not coming within the definition of any pauper of any city or town and in the case of the County of Perry vs. Du Quoin, 99 Ill. 479, the County of Perry was held liable under the provisions of this section.

In my opinion, construing these three sections together, the exceptions of sections 14 and 15 have reference to persons not resident or not coming within the definition of pauper of any city or town and coming within the provisions of said section 24. This construction has been adopted by the Appellate Court of the Second District in the case of The County of Kankakee vs. The Town of Manteno, 68 App., 366, where the Court says: "We are of the opinion that all cases coming within that section (section 24) are county charges," and that holding was made in view of all

of the provisions of the statute in relation thereto, and this is a case where the question of liability between the county and the town was considered by the Court.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

BIRTHS AND DEATHS—FEES FOR REPORTING TO BE PAID FROM COUNTY TREASURY.

March 21, 1902.

Hon. B. M. Davidson, State's Attorney, Marshall, Ill.

DEAR SIR—Yours of the 12th inst. at hand, and in reply will say I am of the opinion the fees for reporting births and deaths, provided for in sections 2 and 9 of the Act of May 11, 1901, in relation to reporting births and deaths, etc., Laws 1901, p. 301, should be paid from the county treasury, as in said act provided. The law is, in my opinion, a valid enactment, and should be followed.

Very Respectfully,

H. J. HAMLIN,
Attorney General.

OFFICIAL REGISTER

OF

LEGALLY QUALIFIED PHYSICIANS.

JULY, 1903.

PREFACE.

The Official Register of Legally Qualified Physicians of 1903 is herewith presented to the physicians of the State of Illinois by the State Board of Health, with the hope that it will be found trustworthy in all essential particulars, and of value to those who have occasion to consult it.

It is believed by the Board that the Register, as sent to the printer, is correct at the present date, July 25, 1903, except in the cases of physicians who have changed their addresses during the past two or three weeks. As the Register is running through the press, proof sheets of each county list will be sent to several physicians, and especially the secretary of the county society, for further correction.

Attention is invited to the following important features of the Register which have not appeared in previous issues.

First. A map of the State of Illinois by counties.

Second. An alphabetical list of all cities, villages and towns in the State with population and counties. This will be found of value when a physician desires to obtain information concerning the practitioners in a certain town and has no knowledge of the county in which it is located.

Third. An alphabetical list of all medical institutions and licensing organizations designated in the Official Register, with an abbreviation of the full name of each institution or organization.

Fourth. The substitution of the number system in the body of the Register by an abbreviation of the college or licensing organization, following the name of the physician. The utmost pains have been taken to so abbreviate the name of each college that it will be clearly understood. When there is any doubt it will only be necessary to consult the alphabetical list which precedes the County Register, to ascertain the full name of the college or licensing organization.

Fifth. An index containing an alphabetical list of all living licentiates of the Board. Those who are not practicing in Illinois, and all itinerants are designated by a star.

Deaths and changes of address noted by the Board while the Official Register is in press, will be published under "Changes and Corrections" immediately following Woodford County.

Physicians noting errors or omissions in the Official Register are requested to notify the Secretary of the State Board of Health.

CHANGES AND CORRECTIONS.

REQUIREMENTS FOR PRACTICE IN THE UNITED STATES.

(See pages cxiv-cxli)

ARKANSAS.

The law of 1903, which took effect May 17, provides for the creation of three Boards known as the Homeopathic State Medical Board, the Eclectic State Medical Board, and the State Medical Board of the Arkansas Medical Society.

Every person desiring to begin the practice of medicine in the state must pass an examinaion before one of these Boards. The Homeopathic State Medical Board examines all applicants who propose to practice the homeopathic system of medicine; the Eclectic State Medical Board examines all applicants who propose to practice the eclectic system of medicine; and the Board of the Arkansas Medical Society examines all other applicants.

The examination will be written or oral at the discretion of the Board, and elementary and of a practical character, including anatomy, physiology, chemistry, materia medica, theory and practice of medicine, surgery and obstetrics.

Dr. J. P. Runyan, Little Rock, is Secretary of the Board of the Arkansas Medical Society. Dr. J. L. Vail, Little Rock, of the Eclectic State Medical Board, Dr. V. H. Hallman, Hot Springs, of the Homeopathic State Medical Board.

MICHIGAN.

Under the law of 1903, which goes into effect on September 16, 1903, all men and women who wish to begin the practice of medicine and surgery in any of its branches in this state, shall make application to the State Board of Registration in Medicine, to be registered and for a certificate of registration. This registration and certificate shall be granted to such applicants as shall give satisfactory proofs of being twenty-one years of age and of good moral character, but only upon compliance with at least one of the following conditions:

First, That applicant shall be registered and given a certificate of registration if he shall satisfactorily pass an examination

before the Board upon the following subjects: Anatomy, physiology, chemistry, pathology, materia medica and therapeutics, toxicology, histology, practice of medicine, surgery, obstetrics, gynaecology, mental and nervous diseases, diseases of the eye, ear, nose and throat, bacteriology, hygiene, public health laws of Michigan and medical jurisprudence; * * * * * * Provided, however, that such applicant for examination shall have a diploma from a legally incorporated, regularly established and reputable college of medicine within the states, territories, districts and provinces of the United States, or within any foreign nation (provided such foreign nation accord a like privilege to graduates of approved medical colleges of this state) having at least a four years' course of seven months in each calendar year, as shall be approved and designated by the Board of Registration in Medicine: Also provided, that such applicant shall have, previous to the beginning of his course in medicine, a diploma from a recognized and reputable high school, academy, college or university, having a classical course, or shall pass an examination equivalent at least to the minimum standard of preliminary education adopted and published by the Board before examiners appointed by and in accordance with the regulations of aforesaid Board, and at such time and place as the Board may designate: Provided, a student entering a college in Michigan, having a preliminary examination of a standard approved by the Board of Registration in Medicine shall not be required to take this examination: Provided, that this requirement of preliminary education shall not apply to those students who, on the date of the passage of this act, were regularly registered as students of legally organized and reputable medical colleges approved of by said Board: And provided, also, that the requirement of medical education shall not apply to those graduates of legally organized and reputable medical colleges approved of by said Board who had graduated from such colleges, previous to the date of the passage of this act; and students complying with the other provisions of this section who on January first of the present year were regularly registered as students of legally organized and reputable medical colleges of this state, approved of by said Board, may obtain a certificate of registration as graduates of such colleges and without examination by the Board upon payment of a fee of ten dollars.

Second, the applicant shall be registered and given a certificate of registration if he shall present a certified copy or certificate of registration or license which has been issued to said applicant in any foreign nation where the requirements of registration shall be deemed by said Board of Registration in Medicine to be equivalent to those of this act: Provided, such country shall accord a like privilege to holders of certificates from this Board. The fee for registration from applicants of this class shall be twenty-five dollars.

Third, the applicant shall be registered and given a certificate of registration if he shall present a certified copy of certifi-

cate of registration or license which has been issued to said applicant within the states, territories, districts or provinces of the United States where the requirements for registration shall be deemed by the Board of Registration in Medicine to be equivalent to those of this act, and shall otherwise conform to the rules and regulations agreed upon between the State Board of which he is a licentiate and said Board relative to the recognition and exchange of certificates between states: Provided, such states shall accord a like privilege to holders of certificates from this Board.

Dr. B. D. Harison, Sault Ste Marie, is Secretary of the Board.

NEBRASKA.

An examination is now required in this state. The applicant must be a graduate of a medical school or college in good standing with the State Board of Health. The applicant who graduated since August, 1898, must show evidence of an attendance upon at least four courses of lectures of six months each, no two of said courses to be held in one year.

The examination embraces those subjects and topics, a knowledge of which is commonly and generally required of candidates for the degree of doctor of medicine, by reputable medical colleges in the United States. The State Board of Health may at its discretion admit, without examination, legally qualified medical practitioners, who hold certificates to practice medicine in any state with equal requirements to those of the state of Nebraska.

Dr. Geo. H. Brash, Beatrice, is Secretary of the Board.

WISCONSIN.

The following is a synopsis of the important changes in the Wisconsin medical law, approved May 22, 1903, which is now in force:

The governor shall appoint a Board of Medical Examiners to be known as the Wisconsin State Board of Medical Examiners, consisting of eight (8) members. Such appointments shall be made from separate lists presented to him every second year, one list of ten (10) names presented by the Wisconsin State Medical Society, one list of ten (10) names presented by the Homeopathic Medical Society of the state of Wisconsin, one list of ten (10) names presented by the Wisconsin State Eclectic Medical Society, and one list of five (5) names presented by the Wisconsin State Osteopathic Association. Three members of said Board shall be allopathic, two shall be homeopathic, two eclectic and one osteopathic.

Section 3. All persons commencing the practice of medicine, surgery or osteopathy in any of their branches in this state shall apply to said Board at the time and place designated by said

Board, or at any regular meeting thereof for license so to practice, and shall present to said Board a diploma from a reputable college of medicine and surgery or osteopathy. A college to be deemed reputable by this Board shall require at least four courses of not less than seven months each before graduation, no two of such courses to be taken within any one twelve months, and that shall require for admission thereto a preliminary education equivalent to that necessary for entrance to the junior class of an accredited high school in this state, including a one year's course in Latin, and that shall after the year 1906 require for admission to such school a preliminary education equivalent to graduation from an accredited high school of this state, and shall submit to an examination in the various branches in medicine and surgery usually taught in reputable medical colleges, or if the applicant be an osteopath he or she shall present a diploma from a regularly conducted college of osteopathy maintaining a standard in all respects equal to that hereby imposed on medical colleges as to preliminary education, said college after 1904 to give three courses of eight months each, no two courses to be given in any one twelve months, and after the year 1909 such college shall give four courses of seven months each, as hereinbefore provided for medical colleges, and shall pass the regular examination of such Board in anatomy, histology, physiology, obstetrics, gynaecology, pathology, urinalysis, chemistry, toxicology, dietetics, physical and general diagnosis, hygiene and theory and practice of osteopathy.

Osteopaths, when licensed, shall have the same rights and privileges and be subject to the same laws and regulations as practitioners of medicine and surgery, but shall not have the right to give or prescribe drugs or to perform surgical operations.

Any practitioner of medicine or osteopathy holding a certificate from any other state Board imposing requirements equal to those established by the Board provided for herein, may on presentation of the same with a diploma from a reputable medical or osteopathic college, be admitted to practice within this state without an examination, at the discretion of the Board.

Any practitioner of medicine or surgery holding a license from the State Board of Medical Examiners of any adjoining state, dated since January 1, 1901, shall on presentation of the same within one year from the taking effect of this act, accompanied by a certificate from the Secretary of the State Board of Medical Examiners of the state issuing the license that such applicant is a reputable practitioner of medicine and surgery, be licensed to practice medicine and surgery in this state, without an examination, at the discretion of the Board, on payment of the fee.

Dr. Filip A. Forsbeck, Milwaukee, is Secretary of the Board.

THE DEARBORN MEDICAL COLLEGE,

465-467 STATE STREET.

The Dearborn Medical College was incorporated in 1903 and commenced its first session on September 1, 1903.

THE BUILDING.—The college building is centrally located, being only three blocks south of the Union Elevated Loop, and accessible to all south side car lines. The building itself, which was erected by the Chicago College of Pharmacy, and is used during the day by that school, is perfectly equipped with three laboratories, two large amphitheaters, and other lecture rooms. The chemical, physiological and pathological laboratories are thoroughly equipped and provided with every convenience for furnishing a complete course.

The Samaritan Hospital, which is an integral part of the institution, is located one block distant, where bedside clinics in diagnosis and medicine will be conducted for the classes in these two branches, and where a commodious amphitheater has been provided for major surgical operations to be performed by members of the staff. In addition, all students will have access to the clinics conducted by the various members of the faculty at Cook County Hospital, and will be admitted free to the clinics conducted by the professors in the various hospitals of the city.

ILLINOIS.

The Dearborn Medical College, Chicago, commenced its first annual session on September 1, 1903.

MICHIGAN.

The Michigan College of Medicine and Surgery and the Saginaw Valley Medical College have consolidated under the name of the Michigan College of Medicine and Surgery—Saginaw Valley Medical College.

NEBRASKA.

The Omaha Medical College (Medical Department University of Omaha) is now the University of Nebraska College of Medicine.

NORTH CAROLINA.

University of North Carolina, Medical Department. This school was organized in 1891, and formerly gave only the work of the first two college years at Chapel Hill. In 1902 the course was extended to four years by the establishment of a department at Raleigh in which the last two years are given. Degrees will now be conferred, and the faculty in the completed school of medicine numbers 25. It is a member of the Association of American Medical Colleges. The number of students enrolled in 1902-03 was 83; graduates, 4; total fees are $85.00 per year. Board, room, light and heat may be had for from $84.00 to $102.00 per college year. The President is Dr. F. P. Venable, Chapel Hill. The next session will begin September 7, 1903, and end June, 1904.—Journal American Medical Association, Aug. 15, 1903.

OHIO.

The Cincinnati College of Medicine and Surgery should not have appeared on page cli. This institution went out of existence in 1902.

TEXAS.

The Medical Department University of Dallas is now the Baylor University College of Medicine.

Southwestern University Medical College. This is the Medical Department of Southwestern University and was organized in June, 1903, with a faculty of 28 professors and 11 instructors, total 39. The first session opens October 1, 1903. The course of instruction is graded and covers four years. Requirements for admission are equivalent to those prescribed by the Association of American Medical Colleges. The fees are: Matriculation, $5, paid once; annual tuition, $75; graduation, $25. The hospitals represented by the faculty and open for clinical teaching are: St. Paul's Sanitarium, City Hospital, Children's Home, Rescue Home, Woman's Home, St. Joseph's Orphanage, St. Matthew's Home for Children, Dr. H. K. Leake's Private Infirmary, Out-door Clinic of the Settlement Home and Presbyterian Home for Children. The Dean is Dr. John O. McReynolds.—Journal American Medical Association, August 15, 1903.

OFFICIAL REGISTER OF LEGALLY QUALIFIED PHYSICIANS.

NOTE.

While the Official Register was being printed, copies of the proof sheets of each county list were sent to physicians in different parts of the county and to the secretary of the county society, when one existed, for corrections. Nearly every physician promptly returned the copies thus sent, with their final revision or certificate of correctness. The information thus obtained was used in correcting the revised proof sheets. By these means greater accuracy and completeness were secured, and the information was brought to the date of publication.

Information received too late for insertion under the proper head, and changes of addresses and deaths noted recently will be found on page 283.

NECROLOGICAL.

Dr. Lucius Gillette Thompson, of Lacon, who died October 30th, 1903, was one of the founders of the Illinois State Medical Society. In company with the late Dr. Robert Boal (who died June 12th, 1903, in his 96th year), he drove to Springfield from Lacon in June, 1850, to attend a call for a State Medical Convention, issued by the Ottawa Medico-Chirurgical Association. At this convention the following physicians were in attendance: J. V. Z. Blaney, of Chicago; Robert Boal, of Lacon; E. S. Cooper, of Peoria; John A. Halderman, of Carlinville; M. Helm and A. G. Henry, of Springfield; W. B. Herrick, of Chicago; Gershom Jayne, of Springfield; F. A. McNeil, of Peoria; Edwin G. Meek, of Chicago; S. A. Paddock, of Princeton; Edward R. Roe, of Jacksonville; Rudolphus Rouse, of Peoria; B. F. Stephenson, of Petersburg; L. G. Thompson, of Lacon, and Samuel Thompson, of Albion.

The Convention organized itself into the Illinois State Medical Society, and the following officers were elected: President, Dr. Wm. B. Herrick; vice-presidents, Dr. Rudolphus Rouse and Dr. A. G. Henry; secretaries, Dr. S. A. Paddock and Dr. Edwin G. Meek, and treasurer, Dr. John A. Halderman.

Drs. Robert Boal and L. G. Thompson were present at the semi-centennial meeting of the Society held in Springfield May 15-17, 1900, the sole survivors of the physicians who assembled in the State Library in Springfield on June 4, 1850.

It is believed that of the charter members of the Illinois State Medical Society recorded at the 1850 meeting, but one is now living, namely Dr. N. S. Davis, Sr., of Chicago.
